**Oxal:** Greetings in the Light, my friends, Oxal here.

My friends, I am going to speak to you for a few moments in regard to the status quo of your civilization. I do not particularly like this assignment but it is thought that your attention should once more be brought to these things.

As you are aware, two more great events have taken place very recently of which we spoke to you about at the beginning of this year and this decade of your time. The spirits of fire, water and air are very busy in these times bringing about some of the things that must occur, that planet Earth can be cleansed and prepared for the future. It is difficult for those of you who are far removed from these events, to realize the vastness of nature's actions, when man has created the conditions that bring them about. The intensity of these things as you must have noticed, has been gradually increasing. Nowhere upon planet Earth will there be that the results of these things shall not be felt sooner or later.

One of your great considerations at this time should be the preparation for food shortages which is now beginning to occur. Even some of your government officials are now beginning to become alarmed at the situation. If you will note there is talk among these people, these politicians of lifting the ban on the growth of food. Wouldn't you surmise it was about time for such action? But to use one of your earthly phrases do not your politicians usually lock the barn after the horse has been stolen? Watch the food situation closely from now on for you are going to find the supply becoming shorter and shorter and through certain future events of nature great shortages will occur.

I do not tell you these things, beloved friends, to put fear into your hearts, but only to forewarn you that you might prepare. It is not our purpose to put fear in the hearts of men. But we know that those of you who are attempting to walk in the Light know also that you will be protected and guided if you stay in the Light. And those in the Light want to be forewarned, they want to know and they do not fear, rather they act. Faith is a great virtue, properly used, but faith without works is also dead. So, my friends, have faith strengthen it but also act as you are guided to act in all things.

We, who are watching your people, are trying to help in every way that we can yet we cannot interfere in the evolution in man. We can only show him the way, attempt to guide him into the path that will lead him into the Kingdom which he seeks.

My beloved friends, I have said enough. I leave you by extending to you the love, the light and the understanding of my people.

I am Oxal. ✿
