

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Hatton: I greet you, beloved friends, in the love and light of the infinite creator. I am Hatton.

At this moment I am aboard a craft, not more than eight miles above you. We have for your benefit, established here a field of cosmic energy, what some of your people might call prana, in a concentrated form. Through our scientific knowledge and devices, we are able to bring these energies into concentration, a concentrated form, so to speak, and this we have done for you, my friends.

This room, in fact this dwelling is completely immersed at this time in this field. Make yourselves receptive, establish an attitude of reverence and gratitude, and then visualize as strongly as you can, this energy flowing through you. Visualize it passing through every cell of your being. Visualize this energy flowing through the spine and out into the nerve centers of the body distributing itself throughout your physical structure. Draw it deeply into your lungs, direct it to all parts of your body and particularly to the weaker points. We will now discontinue our contact and allow you to absorb this life giving energy for a time.

(Fifteen or twenty minutes later.)

It is our sincere hope, beloved ones, that you have received some benefit from our efforts. The atmosphere which you breath contains this energy in great qualities. It is for you to use. Great benefit can be had once you have learned to draw this energy within you and apply it. It must be directed by you, it is possible to draw within yourself great energy in this manner, once you have learned to command and direct this energy to work for you. It would be well if you did this quite frequently. I am sure much benefit will be had.

Now, my friends ...

(Interrupted by a question.)

Questioner: Excuse me, may I ask a question before you go?

Hatton: Yes, my daughter.

Questioner: As the third satellite goes into orbit, will more of this prana, cosmic energy be available to us?

Hatton: This is available to you at all times. It is in the very air you breathe. You need only to use it, to draw it forth.

Questioner: Did you and Oxal state before that this would be enhanced when the satellite is in orbit?

Hatton: That is a different, completely different thing. This prana is the energy that permeates the atmosphere that you breathe. Man of Earth does not know or realize the importance of the air which he breathes, neither does he realize the command that he has over these energies that are contained in the atmosphere about him. Man must learn to use his mind, the creative power that is held within man himself. Man has mastership over many things, if he will but realize it.

The devices that are being used by the satellites, that have been put into orbit around your planet, is somewhat a different situation. They are increasing or perhaps, I should say, amplifying cosmic energies of a different nature. They are also collecting energies that are sent by man himself upon Earth in the attitude of love and reverence, multiplying these energies, or amplifying them and returning them to Earth man to help him in his spiritual growth and understanding. Does that clarify it for you?

Questioner: The energies and prana are not the same thing?

Hatton: No, they are not. The prana is contained within your atmosphere. The energies that are being used by the satellites encircling your planet are not within your atmosphere. They are energies that do not exist within the atmosphere of planet Earth.

Questioner: Then we must send our love to the Master?

Hatton: Indeed, your love, your gratitude. This love is energy created by man himself and can be taken and amplified and returned for the good of man upon your planet.

Questioner: Then blessing and loving the Earth, the satellites, then that is love energy, is it not?

Hatton: If it is done in love.

(Thanks is then expressed for the helpful answers to the questions.)

Now, my friends, I must leave you. I extend to you my love, my blessings and my understanding.

May the Peace of the radiant one surround you and go with you at all times.

Odina, vasu, my friends, Odina. ♣
