

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Teacher: My beloved children, Peace be with you.

In the hearts of all of you arise many questions. Operating as you are in this vibration that exists upon the planet that you call Earth, it is difficult to understand the actions of the more advanced planes. But let me assure you that each of you by following your guidance, that inner urge within you, will come into your own, will fall into your path and will fulfill your destiny.

There are many scientific things that we should like to share with people of Earth. For one thing, we are controlled by universal law and another, we could not, as yet, give to planet Earth the powers that will one day be hers.

Her people and especially those who are in power, have not as yet, reached a stage where they are capable of coping with these powers, of using them to the advantage of their people rather than to the advantage of selfish interest. And to bring to you an example of what I am speaking, already the powers that control planet Earth, are using powers wrongly. Already, your military powers are using sacred gifts of certain individuals to gain information. They have learned that they can apply these powers to their advantage. If certain other energies and scientific knowledge were made known to them at this time, it would be used in the same manner. Your science is advancing regardless, and your scientists are discovering more and more of universal powers and of what you term as psychic powers. These should be used with reverence and used to the advantage of mankind. Until spiritual understanding becomes predominant among Earth people, these powers are in dangerous hands. We shall do all that we can, to prevent these powers being used as a destructive force. We are not at this moment as concerned that these energies, these powers, be known by Earth man, as we are in the development of mankind, in trying to bring into his realization a desire for spiritual knowledge, and this can only come from within.

All mankind has somewhere within him this desire. The problem is to spark it, to ignite the flame, so that it might burn within him and spur him onward. Within each of you is the ability to draw this knowledge which

you seek. Each of you have within you a desire for certain accomplishments. These desires shall be fulfilled through your own efforts. You can do that which you desire to do, and help is forthcoming to each individual who makes the effort, removes the blocks and proceeds upon the path. No man is helpless. He only needs to make the effort. However, Earth man has much to overcome. He has allowed himself to become attached, and many times our attachments can be a tremendous block in our path.

Questioner: Personal or material?

Teacher: It could be either or both. Emotions can also bring about great blocks. These things we must recognize and deal with. Each in his own way must deal with his or her problems. But above all, we must recognize our problems, for unless we recognize them, we have great difficulty in dealing with something that we do not recognize. We must face ourselves, openly and squarely.

Many people on planet Earth have been given great opportunities to serve. In many cases, they have served well for short periods, and then their weakness overcame them. They were not able to cope with the temptations. They were not strong enough to say, "Get thee behind me Satan." So many have failed, a few have succeeded. Many others will be given the opportunity, and perhaps your opportunity will come. But have patience, my friends, have patience and prepare, for it shall take strong souls to overcome.

When the pupil is ready, the teacher will appear. Continue your preparation, for you know not when you will be called upon, and I have not the authority to name the time, but the time depends somewhat upon the individual. Therefore let each of us attempt daily to prepare ourselves for a greater opportunity to serve, and when that time arrives, let us each serve to our fullest capacity. Let us serve in love, in humility and in understanding.

In love I leave you. ❧
