**Joseph:** My greetings to you, my children, I am Joseph. I will only take a few moments of your time.

Many of your people continually ask why those from other realms do not do more for planet Earth by eliminating some of the things that are coming about. Most of your people would not believe the things that have been done and are being done for your planet at this time and also in the past. Had we not cleaned up some of your pollution, you would be in much worse condition than you are today. If we were to take care of all of it, I wonder how far your people would go in trying to create more and more?

But Earthman must learn to take care of himself, to protect his environment. He must learn responsibility to his fellow man, and we find he had been very, very slow in doing this. But beyond that, you would be amazed at how many individuals are upon your planet today, that have come from other dimensions to attempt to help people of Earth to avert some of the catastrophes that they are bringing upon themselves.

These individuals have come in many ways. Some are aware of who they are and what they are to be about, while others are not yet aware of who they are and what their mission is. Although many of them are carrying out their mission at the moment, and not realizing why they are doing it. Some are not yet awakened to their true identity and their true knowledge and their true mission. Anyone of you could be one of these persons and not have the slightest inkling of it.

Some have come through the mother route, grown up in normal Earth families. Some have taken over bodies that others did not want. Some have come by craft, and some have simply materialized a body here. But these number into the thousands upon planet Earth, and they are trying to awaken mankind to the realization that he can do something to help and better himself. He can do something to avert certain situations. This has been a difficult task because the masses of Earth people have been lulled into an hypnotic state of well-being and satisfaction in the pursuit of the carnal life. He has been

completely satisfied with someone else making decisions for him in deciding the destiny and direction of your nations and your peoples.

Man has almost reached the point of no return. In some things he has reached the point of no return. So far as earth changes and the violence of nature he has already passed the point of no return. These things will come because man has brought about the conditions that induce these things. So far as the holocaust of war, man can still change this if he will but demand of the powers that rule these things that they are not to be, that he will not support or tolerate them. But this would take a great awakening of the masses to the realization of how they have been falsely led to believe that these things are necessary. There would have to be an uprising against such actions and at the moment it does not look as though this will happen. So man, for the lack of action in these matters, will suffer much.

We cannot force man to do these things, we can only show the way and this is being done in all parts of your planet, but not much heed is being paid to this.

However, the opposition to these actions of war, and to the war-mongers of your planet, is much greater than it was a few years back. There is just a possibility that enough people may rise up and refuse to take part in these actions.

Only time will tell, and those who have come here, who have sacrificed themselves in doing this, are doing everything that they can to alleviate these situations. Our hope is that your people, through the help of these, will be successful. But again, only time will tell.

But in the near future many of these people are going to become known, not only to themselves but to others. And those with whom they come in contact and work with, will find that they will be very helpful in the times that are coming. So beware that you might recognize these individuals when the time is right.

Now, my friends, I extend to each of you the love and the understanding of our group.

I ask that the love and the blessings of all the Great  
Ones be bestowed upon you. May you receive this  
blessing with love.

May peace reign supreme in your hearts.

Go in peace, my friends, go in peace. ☸
