**Oxal:** Greetings in the light, I am Oxal of Arcturus.

For a few moments tonight, I should like to speak to you about some of the conditions that exists upon planet Earth, and some of the corrections that must come about in the near future.

For many years it has been the practice of the powers that be to withhold scientific developments because of the effect that it might have upon the economy or the investments and holdings of some. My friends, you would be amazed if you knew the scientific advancements that are being withheld at this moment. It is felt by many of the group on planet Earth, that anything being developed in their particular field of science, is of no value unless it is presented through their organization. However, it is often true that some of the greatest developments are brought by someone who is in an entirely different field of endeavor. The greatest concern in most cases today is the effect that it might have on the holdings of those in power. A very narrow view is taken by some in this respect. There is no reason why any new scientific advancement should bring about ill results if the motives of all are of the highest.

I say to you, my friends, there are enough scientific advancements being withheld today to eliminate all poverty and practically all disease upon planet Earth, if they were allowed to come forth and be used in the right manner for the benefit of all. These things are not in the future. They are here today.

There are many sincere people who are trying to bring this about. There are many new developments, and they cannot bring them forth, because they would be persecuted brutally. I am sure that some of you at least, have seen some of these and others who have not seen, are aware. But not until Earth people are awakened and brought to the realization that they must think for themselves, will these things change.

The masses of Earth people have been for so long in a state of sleep, they have been taught to allow others to think for them. That is why, my friends, we find corruption in so many of your organizations. Unless enough interest is taken to do something about these conditions, they shall continue. That is why we say, my

friends, that a Brotherhood of Man must come into being where each shall take his rightful place, where everyone shall do his part for the benefit of the whole.

There is no room for hate, for greed, for when these are eliminated, social want and poverty and sickness vanish with it. No man is entitled to more than he earns, and in universal law, no man receives more than he earns. But when man has understanding and love in his heart, then he is willing to earn his advancement. He is willing to work for his understanding, for nothing, my friends, comes without effort.

I leave you now by extending to you the Love and the understanding of my people.

I am Oxal. ✨
