These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Zalhem: Greetings to you my children. Well here I am. What would you like to talk about?

Questioner: What do you think the overall impact of the movie "Out on a Limb" was, negative or positive?

Zalhem: I think it was both. I think that in some cases it was positive in that it may have sparked something in a lot of people who have not been too sure about New Age teachings. It may cause them to open up a little more and investigate. I do not think that it had any effect on the closed minded ones. I think that the overall effect remains to be seen, depending a great deal upon what is done with it and how it is handled. If people are encouraged to jump into the psychic without investigating and learning something about what they are getting into, they may get into some serious trouble.

Questioner: Who are the "tired child egos" that Richard Ingaese speaks of?

Zalhem: They are the ones that are weak. They have become tired and are not able to follow through on their self-development. They are neither evil nor good, as we might say, they are sort of in between. Their chances of moving on to the higher teachings, to a place of higher evolvment, is practically nil. So they will be gathered together at the close of this period in what is known as "the judgment day" in the scriptures. They then will go through a period in the astral realm. This will be what they imagine to be the 'eternal rest'. It will not be as they had envisioned it but it will not be unpleasant. Gradually they will fade back into Universal Consciousness. They will be absorbed to come forth again in another cosmic day, a stronger soul.

Questioner: Will they lose their individuality?

Zalhem: Well in sense yes and in a sense no. It is a rather difficult thing to describe. After all, what is your identity? Your only real identity is the soul and that is identifiable only by vibration. The soul expresses through many forms. It is quite a complicated matter. It is very difficult for you to understand in this state of your evolution. Someday you will understand much more clearly. This will happen as you are able to get a

wider view of the whole. It is something that you do not need to be concerned about at this time.

The Father takes care of his expressions. Nothing is ever lost. Universal Consciousness is a very frugal entity. That is not a good term to describe Universal Consciousness. In fact is difficult to find a good term to describe Universal Consciousness. None of us understand it thoroughly and completely. None of us are at the stage where we understand it. There are those who have reached the top and have a thorough understanding but we have not reached that state yet.

So there are many things that we will not be able to comprehend. But as we grow day-by-day, year by year, lifetime by lifetime and as we continue to gain knowledge, to work and strive for what seems to be the impossible, we will understand more and more of that Great Consciousness out of which we were all born. So do not let these things trouble you. The main things that you have to be concerned about is developing your own ego. Learn as much as you can, step by step, of the things necessary for you to grow, day-by-day. No one gets there by leaps and bounds. It is all done step by step. Be sincere in your seeking. Ask and you shall find. Knock and it shall be opened to you. These were not empty spoken words for as you seek so shall you find. Keep this ever in mind. Do not be concerned about the things that are beyond your reach at the moment. Rather absorb the things that are within your reach at the moment. Put into practice the things that you know. Make sure that you grow a little bit each day, each month, each year and that you become a little wiser than you were the month before or the year before. All things shall be revealed to you at the right and proper times.

Questioner: Does the phrase a "new heaven and a new earth" mean the constellations will change also?

Zalhem: There are going to be changes especially in your solar system. Mainly what was being spoken of were the changes to take place in your solar system. When the new sun comes in there will be great changes taking place on your earth but there will also be changes in the heavens. There will be shifting of the planets and their orbits. That is what is meant when it was said "the Earth will stagger as a drunkard" and that there will be "a new heaven and a new earth."

Questioner: Then for the most part the constellations will remain about the same?

Zalhem: I am not too sure about that. That is a little beyond my control. I am mainly concerned with this solar system here. No doubt there will be other changes that will take place but this will be determined by the Great Ones and they do not always impart all of that information to us lesser ones. So you do not really need to be concerned except your own solar system.

Questioner: What is happening to the financial structure of the civilization?

Zalhem: Well, it is weakening day-by-day. There were more U.S. banks that failed in January of 1987 than have ever failed in a one month period of time before. They were mostly banks located in the farming and oil producing areas which had over extended on farm loans and to the oil producers. Many of your farmers are in very bad shape. A great deal of their problems is due to their own lack of foresight and their greediness. They wanted to grow too fast and engulf too much land. They made huge investments in equipment and tried to handle more than they were capable of handling and thus they have found themselves in a bad situation. They have over produced their land. They have worked it far more than they should have. This has depleted the land. They have used forced methods of growth and thus have produced more than the markets have use for. So they have not been able to meet their financial obligations.

By and large your banking system is not in good shape. A lot will depend upon how long your Federal Reserve Banks can keep things going and also how long they can keep or prevent the underdeveloped countries from defaulting on their loans. This could happen anytime but I do not foresee it for at least several months to come. It could be longer. It is impossible to set a definite date on these things because so much of it depends on the actions and reactions of the humans. It depends how long they can hide their wrong doings and keep themselves propped up through false methods.

As I leave I extend to each of you my most sincere love and blessings. May you go forth in love and peace and joy. May your life be full, prosperous, healthy and joyous.

Peace beloved ones Peace, Peace, Peace.

Questioner: Did you participate in our meditation on January 31?

Zalhem: No I did not, but I think that one of the other teachers looked in on you and made an evaluation on how you were doing. What would you like to know about it?

Questioner: Do we have to ask to get someone like yourself to come and participate?

Zalhem: Not necessarily. The Brotherhood is always aware of what you are doing. Usually somebody would be there to try to help and to add to your power. Do not sell yourself short. You have power and your concentration and efforts can be effective to a great degree. None of this is going to change the whole world overnight. That is not the way it works. Of course there are certain things that are going to happen regardless because of Karma and because of necessary changes that need to take place. Both within your solar system and within your planet. The cleansing period must occur in order to cleanse Mother Earth of the great negative load that she is carrying. To replenish her strength, her vitality and resources. Do not sell yourself short. You who are sincere will have your effect. That is the main thing in this effort. Even though some of them may not have been good meditators just their participation and their sincere effort in trying to help in this matter helps to add to the overall strength.

Questioner: Do you have anything to say concerning that evaluation that you mentioned?

Zalhem: Well, I think that as a whole your group did quite well. There were some there who were more effective than others. I think that all of them were sincere in what they were trying to do and were concentrating their thoughts on that. Therefore the group did have its effect. I would say that the overall evaluation is quite positive.

Questioner: Any suggestions on how to keep the group functioning?

Zalhem: Just do the best you can to interest those that would follow through. I do not think that all of them will follow through but some of them will and will be an asset to the group if you decide to continue it. I think that there are some that are capable of receiving benefit from the knowledge that you have. You will know this by your intuitive feelings. I am not going to point out particular individuals. This would not be proper. You will have a learning period as well as they. You will learn to use your intuitive feelings and learn to read them.

Questioner: Is she aware of these problems?

Zalhem: I think that she is aware of them to some degree but I do not think that she is giving it too much precedence. I think that she is more or less shying away from the negative side. She has not been willing to face up to it altogether. So it remains to be seen what she does. ♣
