

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: Greetings, I am Oxal of Arcturus.

As planet Earth moves forward to take its place in the new Age that is approaching, it faces a real change, not only does planet Earth, but the whole system in which it moves. Changes that are coming are much greater than most of you can conceive.

Man of Earth has a great task before him in preparing himself to enter this new realm. As we have stated before, there shall be many who will not be able to raise their understanding to the required level and therefore shall not be able to move with their planet and their system. The time, beloved friends, is now when man of Earth must bring about a new era of understanding. But above all, he must understand himself. Man must have some understanding of what and who he is. He must understand that he is a god-like being created in the image and likeness of his creator, endowed with great powers, with great abilities and once these are known and understood, he shall have mastership over many powers and energies. He shall create in manners that will be unbelievable to him at this present level of understanding. Man must start where he is. He must grow in understanding step by step. The great need today on planet Earth is for man to gain enough understanding of himself and his brother man that he can live together with his brother in some similarity of peace and love.

The greed, the hate and the lust that exist upon your planet today, must vanish, and this can only be dissolved through love and understanding. Not a love as it is thought of by man in general upon planet Earth, but a love that extends to all mankind and to all creation. Man is only an individual to a point and then he becomes a part of the whole, you in me and I in you. Your problem is my problem and my problem is your problem, each working and pulling together for the good of the whole. That, my friends, is what makes a powerful race, a powerful nation, a powerful planet or a powerful galaxy.

Planet Earth must learn to live and work together as a planet, for soon it must learn to take its place in the galaxy as a part of the galaxy and be prepared to work in unison with the other planets in the Confederation.

planet Earth has isolated itself long enough. Now it is time to take its place with the others and carry its share on the road of evolution. Man of Earth must be made to realize the importance of these things, and beloved friends, it is up to such as yourselves to do your part in bringing this about. The time is short, and there is much to be accomplished. Man of Earth, when he has entered the new Age, will be a new specie. The energies that he will be exposed to by the new sun that is moving into your system, or will move into your system, will make of him a much higher, a much more refined species of mankind.

I leave you, my friends, by extending to you the love, the light and the understanding of my people. I am Oxal. ☸
