**Oxal:** Greetings in the light, my friends, I am Oxal.

Planet Earth and the actions of its people are being observed very closely at this time. We are very interested in many of the experiments that are being conducted by your scientists and your engineers. Very little is known by you, the people, of the experiments that are being conducted. The research and experiments which are given to the people, which they are allowed to see or hear about, are to a great extent a camouflage.

Some years ago your scientists or your governments were given certain objects of interest to them by individuals from other planets. Your government has in its possession two of our craft and several other instruments and devices. On these they have spent great efforts in trying to solve what to them is a mystery. Yet to date, they have not gained much knowledge of these things.

It seems they are not capable of realizing the importance of man himself, of the powers that lie within man, that lies within the minds of man. It seems that Earth man must always take the difficult path in his search for knowledge.

It was made plain when these things were given that the mysteries to their success were simple. Yet gradually, the solution is beginning to dawn in the minds of a few, and these we are watching with great interest, observing the change that is taking place in the minds and hearts of these individuals. From some of these and others who are yet to be awakened will come the leaders in the great new Age that is dawning upon planet Earth.

Also other things are being done at this time and will be done in the future to baffle Earth man, to cause him to think and to realize the smallness, the insignificance of his knowledge to date, to cause him to realize that he must retract some of his thinking and start again at a new point of observation and move from there on a different path to a new great understanding.

At this time your scientists, your astronomers, are very baffled at some of the things that are occurring in your skies. They speak very little of this, for as yet, they

have not learned humbleness, but gradually these people must be brought to humbleness. They must be made to realize their responsibilities and to face them. The object that has been in your news recently, the object that has been orbiting your planet, we are responsible for this. However, I cannot at this time go into detail, but this is merely being done for this purpose. It is not of great consequence or importance, but it is causing some thinking to be done.

Truth can only come to Earth people very gradually, for their minds are not able to accept it in great quantities. For their own good, it is necessary to feed them slowly, but as their minds are gradually opened, truth can be fed a little faster and a little faster. This has not been an easy task, for the time is limited. We have found it necessary to use every short cut possible in order to meet the schedule that we must follow.

Each of you, my friends, can help in your way to speed the progress of Earth man, by dropping your seeds when and wherever you find it possible.

To feed the sheep continually as you feel led to do. This, many of you have done to a great extent, and for this we are grateful, and you, I am sure, feel within your heart the reward that comes from this service.

And now I leave you, my friends, by extending to you the love, light and understanding of my people.

I am Oxal. ☸
