Samuel: Greetings to you, my beloved brothers and sisters, I am Samuel.

It is my privilege to have the opportunity to spend a few moments with you in this manner. I know that each of you here are searching, are looking for greater knowledge and greater wisdom.

Men of Earth who are sincerely seeking, who are sincere in their efforts to gain new knowledge and new wisdom stand upon the threshold of greater knowledge and understanding than has been known upon your planet for thousands and thousands of years.

Many of you at one time in the dim, dark past of other civilizations upon your planet have gained great knowledge, great powers, have understood the forces of nature, have understood the laws that control these forces. But this has been lost through the downfall of the civilization. Now Man of Earth must soon come into his own. The greater knowledge must again be brought forth in him that he might use this knowledge to the good of mankind as a whole.

It seems that it has been difficult for Earthman to control his desires and emotions in the past, to control that lower self which desires to serve itself. After gaining power and knowledge, he lost the wisdom to handle it. Power and knowledge can be very destructive to mankind if he has not the wisdom to go with it.

So, my friends, as you move along the path of Truth, search always for wisdom. Pray always that you receive wisdom and that you maintain it for it is only through wisdom that you will be able to use the knowledge of the universe.

There are great energies throughout your universe that can be used to bring about great good for mankind to improve his style of living to make life good for him. But these same energies can be used for destruction and for the destruction of mankind. Again this knowledge is being opened to Earthman as he approaches what you term to be the New Age. In this New Age those who are qualified to move into this area of space with your planet and your solar system, will be revealed much of this knowledge. It will not come as one great

awakening or revelation but rather it will be given to you gradually. Some of this process is going on at this time although you are not aware of it or at least most of you are not. But this is a subject that I'm sure you will be discussing later and perhaps we shall comment upon it then.

Tonight we wished merely to say that you are embarking upon a great adventure in knowledge. Your complete laws of science will be altered. New ways of doing things will be presented. It will be a passing from the old to the new and only those who can move with the process will be the ones who will receive. Those who insist on clinging to the old and refuse to move from the rut into which they have dug themselves, will not be the ones who will be chosen to establish the New Age. Your old scientific ideas will die with them and the new shall come forth with the new science of the age. It is taking place today, but not too obviously, for the old guard still holds the hand of powers. But this will pass away. Then your scientific and spiritual understanding will grow much faster, hand in hand.

As I leave this instrument I extend to you my deepest love and I ask that all the Great Ones pour forth their peace, their love to each of you. May each of you find wisdom on the path of Truth.

Peace, beloved, peace. Go in peace. ☸
