

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Zalhem: Greetings to you my children I am Zalhem. What would you like to talk about?

Questioner: Do most people get married for the proper reasons? Do they marry the right people?

Zalhem: Usually those who marry quickly or for emotional or physical reasons, as a rule do not last long. I would say that the majority of marriages are karmic. People are brought back together to work out certain Karmic patterns.

Questioner: So people are not doing a very good job of working out their karma. They are giving up and getting divorces even though they were supposed to stay together and work it out.

Zalhem: Many times that is the case. Many times the karma has been worked out and they have nothing else to be together for so they part. This is true in many cases. Sometimes it does not take very long to work out a particular karmic situation. Sometimes children are born into a certain situation for a karmic purpose, to go through certain experiences for karmic reasons. Even retarded and handicapped people are bound by the Law of Karma. They are placed in these situations to allow them to work out karma.

Questioner: Is that generally the case in that type of situation?

Zalhem: Yes.

Questioner: So very few of these people are in that situation because of an accident.

Zalhem: That is correct. It is called an accident but it is really not. There are always exceptions. Wars bring on exceptions. People lose their lives before their time. Usually they come back quickly to finish their karmic pattern. The Law of Karma works under the Law of Attraction and Repulsion. People are drawn together for karmic reasons. Karma does not have to be bad, it can be good. Often people live marvelous lives because they have earned it karmically. But also people make many errors. A great deal of it is due to ignorance. Your religions are to blame for a lot of this. They have left out the important things that should be taught to people therefore people suffer from that. The

churches themselves, their leaders and those who blindly follow are subject to Karma to pay for their errors. That is why it is said that "the sins of the parents are inflicted upon the generations to follow," is that clear?

Questioner: It does not stop with the original wrong doer.

Zalhem: That is true, it continues on. It all started way back. You see the avatars were sent here to put people on the right track. But selfish leaders who put power above everything else led the people astray. They persecuted those who were trying to teach the law properly. That must change now. Man is becoming more enlightened now and is able to reason better.

He should be able to solve many of these problems. There are always the diehards and then there are those who will never make it. They will be the ones who will be weeded out so that the coming generations in the next age can proceed at a better pace on the ladder of evolution. The weeds must be gotten rid of.

Questioner: Have the people who will be part of the next age been chosen yet?

Zalhem: Pretty much so, yes. There are many that do not realize yet that they are going to qualify but their views and their perceptions will change more rapidly. They will be able to perceive the new ideas and the new teachings and they will begin to follow them. As long as man is willing to make the effort and to do that which is necessary, he will be given the chance to do it. This is not to say that everyone will make it in the New Age. There may be some that will fall by the wayside.

The more advanced individuals know that they will be going into the New Age as helpers and leaders. There are many who have not come into the realization yet. There are many who still do not understand and are hanging on to the old. You can see that gradually people are beginning to reach out for something new. This is happening to more and more people all the time. The old is not satisfying them. You can see this happening all around you and it has been for many years. All you have to do is look back a few years and see the difference. So those people who are willing and able to accept the new teachings and see the merit of them will be given the chance to do it. The New Age

will not be without souls. There are probably many more than you think.

Questioner: Where does the 144,000 figure enter into this?

Zalhem: That only applies to those that will be left on Earth. The fact that one may lose their life does not necessarily mean that they will not be in the New Age. Probably many more of them will change bodies before they go into the New Age. This change that you are going through only happens at great intervals of time, like the Atlantis period. In this period, there were many advanced souls and some of them have not come back since that time but will come back when it is necessary. Others from that time have come back to help prepare for the New Age. They have come at various times as Avatars to bring a message. They have come to try to enhance the knowledge and the wisdom of the people and to give them a chance to do the things that they need to do. Each one of the Avatars that has come has brought a message. If you will study their teachings you will find that they, pretty much, taught the same things. At least nothing in conflict but not possessiveness.

Questioner: The same thing is true of material possessions also.

Zalhem: Yes. One who is obsessed with material possessions can carry that over into the astral plane.

Questioner: How do they satisfy that desire in the astral plane?

Zalhem: By collecting all kinds of things, imaginary things. It is in the mind. But everything is in the mind. It is in the mind here. In the plane that you are in, these things materialize in a different vibration level. In the astral, it materializes just the same but on a different plane. It is just that it is on a different plane of vibration however it is just as real to them as your objects are to you, here.

Questioner: Would you please speak about the different emotions or feelings that we will have towards each other, once we are in the astral?

Zalhem: Emotion is something that has to be controlled. Often times on the physical plane people become so emotionally involved with others, it could be anyone, that they cannot let go and give them that freedom that they need. In the astral plane this could change. One could have an emotional tie with another but if they understood the truth of this, it would not bother them in the astral. They would be able to adjust to that. Karma also enters into this a great deal. Certain people are drawn together due to their karma. When they come back into the physical they incarnate into certain families and into certain relationships with other people in order to work out a karmic debt.

Questioner: Who arranges all this?

Zalhem: There are Lords of Karma, those who are in charge of that type of thing. There are many who work on that. The vastness of the functioning of the astral plane is much greater and wider than the physical plane. You are dealing only with one little planet which is only a star among millions of stars. Throughout space, there are more egos than you can imagine that are involved in all of these different phases of the evolution of man. Each individual is growing and developing at his own pace. There has to be some type of order and control over these things in order to let each individual continue to develop.

Questioner: Some people think that if they have negative karma they can avoid it or work through it. Is there any truth to this?

Zalhem: You can ease your karma by dealing with it properly in a positive loving manner and by not creating more negative karma for yourself. The problem with people is that they frequently create more negative karma by not paying off their karma in a positive way. This is why we have to develop the love nature to be able to deal with all situations with unconditional love. If we find ourselves in a position where we are dealing with other individuals and it does not seem to be working out, perhaps a situation that is negative or we feel that we are being mistreated, we have to meet that situation with love.

Questioner: Would you speak about the speed with which an individual can progress along the path?

Zalhem: Man can do a great deal if he makes up his mind and tries. Time is much different as you view it, than cosmic time. What seems to you here in this dimension as moving very slowly and progressing almost nil is, in cosmic time, moving as you wish and as you desire. Each must travel the path at his own speed and much of that is up to the individual.

That is why so many of you are here now, where others have reached the state of mastership and beyond because they were willing to make the sacrifices to do that. Some souls have been there longer than others but yet the difference in time is not that much greater. So the individual determines his own destiny.

You cannot stand still. You either go forward or you go backward. There are many on the backward path as you can see. It is much more evident today than in any time in your civilization.

Each individual determines his own speed and priorities. So what is most important to you at this moment is the thing that you do. It is just that plain and simple. One must come to the realization that if progress is to be made, then one must buckle down, set priorities and do the things necessary to climb that ladder. Each person must take one step at a time. Do a little part every day. This is not to say that you should go all out and nothing else because you have responsibilities that you need to fulfill and you must

fulfill those. You have responsibilities in the physical. You have to eat and maintain a place to live.

These things are all a part of life but over and above all that, if your time is properly used, you will still find the time to study, meditate and grow. You must also come to the realization that no one is going to do it for you. This is one of the great mistakes of your Christian religions and even some of the others. You cannot pass your responsibilities on to someone else. You are responsible for everything that you say, for everything that you think and for everything that you do. There is no way that you can get around it. No Avatar is going to take on your karma for you and forgive all of your so called sins. They are not going to make everything right and clear your way to heaven where you will meet God and be happy ever after. There is no such thing.

True, there is a heaven and there is a time there for rest, contemplation, growing and learning. There is also time for pleasure and there should be. There should also be time for pleasure in this dimension. All cannot be work. The body and the mind need relaxation and humor. Humor is good for the soul. Never let your humor die. A good laugh is one of the best medicines there is. Enough of that really helps the soul to grow and to advance. So never disregard that fact but it must be kept in perspective. There is a time for everything. One must choose that time and use it. You can waste time. You can let it fly by while you do nothing and several years down the road you find that you are in the same place that you were several years back. So become organized, organize your life and make it worthwhile.

Questioner: Do you have anything new to say about the financial conditions?

Zalhem: The whole thing is so complicated and interwoven throughout the world that it is very difficult for the layman to even begin to understand the workings of those people. There is one thing that they have over looked. There are going to be changes that take place that will interrupt a lot of their plans. There will be both cosmic changes and cataclysmic changes. There will be many records lost. Certain areas will go down. For instance, what would happen if New York were to go down tomorrow? How much would be lost as far as records and necessary information? These changes are going to affect many parts of the world. These changes are going to interfere with the plans of the International Bankers and those who control the money system.

This is not a small group necessarily, it encompasses the entire world and every country in the world. Many of the conflicts that are going on around the world today are a result of their plans. They are instigated by them because they make a great profit from conflict. It also positions countries and people into situations where they can gain control.

Questioner: What is happening so far as the Antichrist is concerned?

Zalhem: This will show up a little later on about the time when you will go to a plastic monetary system. The Antichrist will be back of all that. At that time they will try to form a world government. It has been talked about a great deal in the past and still is, although you do not hear too much about it. The idea has not died. They only wait for the right time. You would be surprised about how much planning goes into all of this so that certain things will happen at the right time. They try to get the timing right so that everything falls into place as they wish it to.

Questioner: Any estimate when this one world government might come about?

Zalhem: It will depend some on various things. It is not too far down the road. When I say too far, I do not mean six months or one year. I would say in the nineties sometime. You cannot pinpoint it to a particular month or year because there are many variables. There are other things that will enter in such as changes that are beyond the control of man.

Questioner: Would you please speak about marriage?

Zalhem: When the Scriptures say that "marriages are made in heaven," this does not mean that the marriages you have here on Earth were made in heaven. It means that your original soul mate and you were made in "heaven." You are an intricate part of each other and there can be no separation. You are both, really all one. Originally were one, then the separations took place for a purpose. Eventually the two will merge again. They will become as one.

Now then, I think that I have stayed my time. I hope that I have been of some help to you.

Go in Peace. Peace. Peace. Peace. ☸
