

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Teacher: Peace be on the heads of each of thee, my friends.

May the blessings of the great Masters, both within and without your planet, rest upon the heads of each of thee.

Seek ye each, my friends, for understanding, for knowledge, for wisdom. Develop in yourselves a love with understanding. A love that will reach beyond understanding. Reach deep into your hearts and cast out that, that has so long repelled the love and understanding which you have sought. No man shall come unto the father, except he hath love in his heart, except he cast out all jealousy, resentment, hatred.

Let each of us probe deep within us. Let us explore each corner of our consciousness. Let us do it sincerely, fairly, honestly. Let us accept what we find there, and bring it out and replace it with love, for where the father's love dwelleth, these things do not exist.

I wonder, O beloved children, just how much you realize the damage that comes from these things. We wonder, sometimes, how Earth people can be so blind to themselves. How they can depict all the weaknesses of another, yet, they are completely blind to their own, and then they wonder why their spiritual growth does not come more abundantly.

A great house cleansing is about to take place upon planet Earth and its people. When this has been completed, planet Earth will have been thoroughly cleansed and will be ready to come into her own.

Little have I said to you, yet I have said much. Ponder my words.

You are wondering who I might be. Does it matter? Have I spoken truth? Who am I? Who are you? I am an intelligence, a small minute part of the One great intelligence. What more can I be.

I ask the great Lords and Masters of the cosmos to place upon each of you their blessings, their love and their understanding.

In Love I leave you. ❀
