Yaum: Greetings to you, my friends.

It is my very great pleasure to come among you again. I should especially like to greet our new friends here today, whom we have not had the pleasure of meeting before. I wish to extend my gratitude to this household for inviting me into your midst. I am sorry that we kept you waiting so long, but we had to do some preparation upon the boy here, since we do not use him very often now, as we used to.

I know that some of you have had much curiosity as to what my work is and has been. So for a moment, if you will, I shall dwell upon this. As all of you here, I am sure, are aware, there is a great need among your civilization today for spiritual help in preparing your peoples, as many as possible, for the approaching time and changes and the coming age as you call it, which is dawning upon your planet and your civilization. I am only one of many who are attempting to work on behalf of Earth people in helping in this time of crisis, if we can call it that. There are thousands and thousands of us who are working in physical bodies among your people, and there are many millions working from, other realms of life, both those in physical form, perhaps a little different from yours, who are from other planets both in and out of your system, and many who are from the non-physical realms who are also helping. You have no idea, my friends, how many are working today on behalf of your peoples. They understand your problems, they understand your failures, and they are each attempting in a small way to help your peoples in this transition.

There are great changes coming about, much greater than you think or realize. Many of these are much closer than you may think or realize. Those who are aware may think of these as great catastrophes, but this is not so, my friends, rather this is a cleansing of planet Earth, a preparation for its transition into a new and greater knowledge and wisdom, into a greater life. If you could project yourself a hundred years hence, and see your planet as it will be then, you could not believe your eyes, I am sure. Yet, this will be the case.

In the past your civilization has developed in an unbalanced manner. The scientific development has

advanced much too far beyond your spiritual and social development, therefore you are out of balance. Now I am speaking of your civilization as a whole, not to anyone personally. There are those in your civilization who have kept balance, but the percentage of these is very, very small. Therefore you have developed scientifically beyond your capabilities of handling it. Therefore you stand at a very dangerous point, where man through his scientific knowledge, and lack of spiritual and social development can bring about his own destruction. This we are desperately trying to do something about. We are trying to change this imbalance at least to bring it into a closer equalization, so that you do not completely destroy yourselves and your planet. This could very easily happen you see with the development of your science today. You already have enough nuclear energies stored to destroy your planet many times over were they to be released. This we do not wish to happen, and we are not going to allow it to happen.

This is why today there are many from other planets surrounding your planet, and keeping vigilance to see that this does not happen. You see, my friends, this would not only endanger yourselves, but it would cause great disturbance throughout your whole Solar System, were this planet to be destroyed.

The Solar System is a very delicately balanced system, much more so than the finest pieces of machinery that you have, and the slightest variation causes disruption among all of its planets, and its satellites, therefore this cannot be allowed to happen, and it will not be.

There has been much concern about this by those who are living on or in the environs of the other planets in your system, and this is one of the reasons so many of the discs have been seen in your skies. We regret very much that more of your people have not followed the teaching of the great Masters that have been given them. They have not found their God-given abilities and powers. What is needed more than anything else in your civilization today is for man to know himself, to learn who and why he really is, and to know that he is a great spiritual being, and that within him, lies all of the power, the knowledge of the universe. He has only to let this Christ Light that dwells within his own heart come forth, to let it be born and mature within his

being. It is there ready to be born, and our great plea today to Earth people is to seek this Inner Light, this Christ Consciousness, and let the God Light shine forth from them.

Many say this is difficult to do, but the only reason that it is difficult for man, is because he feels that he must give up all of his earthly pleasures, the physical desires are important, so man has become a slave to his desires. Men have become slaves to their material wealth. There is nothing wrong with physical material possessions as long as you are in possession, but when they possess you, that is slavery. The larger percentage of Earth people today are living in slavery of this nature. Man needs to free himself, to know himself, to find himself, and to express himself in the Christ Consciousness, the Christ Light. This is man's only goal. When he has accomplished this, he has accomplished all things. He has learned the Truth and the Truth has set him free.

My friends, it has been my very great pleasure to spend this time with you. I shall take up no more of your time. Before I go, I should like to extend to each of you my blessings, my love, and my understanding, and may the Christ Light in each of you shine ever brighter day-by-day.

Questioner: Before you go, did Christ walk on your planet, and where are you from, friend?

Yaum: I have been on your planet for many, many years, however, this is not my origin. I am here in the service of the Light, and my original planet is beyond your Solar System, which would not mean anything to you name-wise. However, it is called Nay-boo-doe.

Christ has been on our planet, however, he is in charge of your planet. This was His mission, and He earned it through many incarnations upon your planet. He has grown into this and earned it. He has entered his Christ-hood. He was given this mission, and came here to prove to people of Earth the true meaning of Christ, which is Love. He was Love made manifest. ✿
