Yaum: Good evening to you, my friends.

Once more it is my pleasure to come among you.

I should like to extend a special greeting to our new friends here tonight, whom I have not met before.

I have listened to your conversation here tonight, or your discussion, and found it very interesting. There are many things that perhaps are not clear to you, but as you move forward in your search for truth and understanding, I think that you shall find these things becoming more clear to you. You shall find answers to many questions which now are somewhat baffling to you.

My friends, you are definitely, as a planet, as a solar system, moving into a new era and many things shall take place during this transition that will change your whole solar system, so to speak. I will only touch briefly upon this, for I know this information is available in some of your writings, and you can read it for yourself. But, in the latter days of your transition, the solar system shall undergo a complete change, in that another sun is moving in to your system which shall put into action new forces, new energies, that will cause practically all of your planets and stars in your system to shift positions, and you will have what is known as a binary sun system. In other words, your system shall have two suns. So you can see, my friends, that the sun, emanating the energies that it does, setting up certain force fields, that in bringing two suns into the system, everything will change, for the positive and negative forces that are holding the planets in position shall be changed. Therefore, certain forces being brought into action will cause a shift in the planets, and they will take new positions around the sun. The present sun will also move farther out, if you can refer to distances in space, farther out or in or up or down. I suppose we have to have some point of reference, do we not. Therefore, we have to use terminology's to express these things. But in short, my friends, this is what is going to happen. Another sun is moving in, at this time, towards this system, and in due time it shall be seen by your astronomers. However, I believe that some of them are already aware of this event, or of the new sun, but it is not talked about, for they know very

little about what is going to take place, although some of them suspect that this is a sun. So much for that.

We find, as we observe the events that are developing today upon this planet, that among certain people, or shall I say, a majority of the people of the planet, there is a definite upswing in spiritual growth. The number of people has increased greatly in about the last two years. This is to say, that there is dawning in the consciousness of these people, the desire or urge to seek a higher or better understanding of man himself.

Man, in ever increasing numbers is beginning to wonder about himself. Certain truths are beginning to awaken within him. He is beginning to realize that man is a greater being than he realizes and that he must know more about himself. There is a great need for spiritual growth in Earth man, therefore, somehow the desire must be sparked in man, for to accomplish anything man must first have the desire.

There are many who are working among your peoples, those who have voluntarily volunteered to incarnate into your civilization. There are those who have conditioned themselves, or perhaps I should say, they have conditioned their physical structure, their bodies in order to come upon your planet, and there are those who are working in the unseen area, those whom you refer to as etheric beings. All of these are combining their forces, in attempting to spark this desire in the minds of Earth people, and I must say they are meeting with a great deal of success.

We also realize that many of you are doing your part in helping those who have had this desire sparked within their hearts, and are now seeking to find avenues of truth, and we would like to thank you and encourage you in doing all that you can to help these people.

But as you do attempt to help these people, try to develop an inner guidance that will lead you in wisdom and will help you to give to these people that which they need at the proper time, for this is most important. You cannot change the consciousness of an individual too rapidly, for if you do, you only bring confusion, and we do not want to confuse people, if we can help it.

You see, my friends, there are many concepts that have been instilled so deeply into the consciousness of some of these people, that it takes a great deal of time

for them to weed out the old, and replace it with the new. I think, perhaps, that most of the people of Earth, are going to have to make some great changes in their concepts and in their consciousness, for many things have been taught by your religious administrations that are going to have to be changed.

In other words, many untruths have been taught, and it is going to be quite difficult for some of your peoples to change these concepts. Many will not be able to do this. You are going to see some very strange things happen to some of your peoples in the coming times. In fact, some of this is taking place at this time. Your mental institutions are over flowing, and I am afraid they are going to become even more crowded. So in your bringing of truth to other people, try to emphasize the importance of open-mindedness, and of not becoming dogmatic, and of not allowing concepts that do not agree with theirs to upset them too much, for they do not have to accept, but it is wise to consider.

Now, my friends, I think I have expounded long enough, I do not wish to bore you, but before I leave I should like to thank you for accepting me into your midst and I should like to extend my gratitude to the good Doctor here, for accepting me into his household. And I should like to extend to all of you my deepest love and blessings, and may each of you go forth in your search for truth, with humility and joy.

I am Yaum. ✿
