

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Nathaniel: Greetings to you my children, I am Nathaniel.

Questioner: Would you please talk about some of the first steps in overcoming problems?

Nathaniel: We must really try to understand and admit what the problems are. You have to be honest with yourself, and you have to be honest with those that are trying to help you. There is no need to hide anything, or be ashamed, or to let your pride get in the way. Let it all come out. You do not have to, in any way, justify a situation. It is there. You have to admit that it is there, and you have to really want to do something about it.

That is why with treating addicts, until they really want to do something about it, really come down to the point where they really want to make a change, there is not much that anyone can do to help them. You can talk. You can preach. You can pray. You can do everything that you can think of, but until they themselves decide it is time to make a change, not much will happen. This is the turning point in the life of man. When he comes to the point of realization that he has problems, whatever it might be. When he wants to do something about this situation, and he is willing to do whatever is necessary to solve that problem. You wonder about suffering. Why do we have suffering in the world? Because that is the only way that man makes his turn around. He spends his time and efforts in satisfying the senses, the carnal desires, seeking the carnal pleasures, until he finally comes to the realization that all of these things bring nothing but suffering. When he says that he has had enough. That I have had all that I can take of this. I am going to make the turn around. I am going to do something about it. When he makes that decision and means it, and is willing to do whatever is necessary, then he finds help coming. In many ways.

We have to begin to recognize who and what we are. That we are a true child of God. It does not matter what we have done in the past. That is done and over with. You cannot change that. You can only change the now and the tomorrow. We must start from right where we are, forgetting the past and trying to eliminate all of the things that have brought us to where we stand today.

This is not something that you do overnight. Many of the ways have been shown.

Questioner: What happens to the tree spirit when the tree dies?

Nathaniel: The same thing that happens to an animal or a person. The spirit leaves it. At this time, it will take up another tree that is ready. What happens will depend upon how evolved this particular tree consciousness is. It might be ready to move to a higher form, such as an animal.

Questioner: How can the larger tree spirit from an older tree fit into a new little tree?

Nathaniel: The tree spirit does not grow any larger as the tree grows larger, just like your spirit does not get bigger as you grow from a little boy to a man. It is the same spirit you see. It really does not have size. Depending upon its intelligence, it can appear anyway that it wants to. It depends upon the spirit's consciousness. It is a thought process, and depending upon their development, they can appear as they desire. It is the same with man.

Questioner: Is the group of egos that will incarnate on this planet after the first thousand years of the next age, part of the 144,000.

Nathaniel: No.

Questioner: How many people will be in that group?

Nathaniel: There will be millions in that group. After the thousand year period, this larger group will start incarnating back into the civilization. These will be egos that are less developed than the original group. Only the strongest souls are able to start something. It is the same when a new country is settled. Those who came to your country first were hardy souls that were able to withstand the stress and strain of something of that nature. And so it is in this case. Then those who are lesser developed, but are still on the upward path will begin to incarnate. These who are not so highly developed, there will be negativity begin to come in. It will be much better handled than it was in the past age. The souls who are developing the new/next civilization are more advanced. The whole process has moved forward. The teachings will be different. The thinking will be different. It will be of a more advanced nature.

The foundation will be much stronger, because it will be based on a stronger spiritual and social basis. Therefore it will stand better. However it is still up to man himself as to how strong it will be once it is established and in motion. Each progressive age of this type is more advanced than the last.

Now as I leave, I extend to each of you my most sincere love and blessings. I invoke the blessings of the Great Ones upon each of you. May you go forth in your search for understanding with an open mind and a pure heart. May you receive that which you seek, in great abundance. Go in Peace, beloved ones. Go in Peace.

Questioner: After Jesus went through his ordeal, did he travel the world continuing to teach ?

Nathaniel: Yes, he did, but in a different way. Each country or continent that he attended was done in a different way, according to the customs of that area. In the case of this country, even different tribes were handled differently. He did not use the same name. He more or less, let them name him. He did this for a number of years. I do not know exactly, but I would say that he continued to teach and travel for about two hundred years. ☸
