Samuel: Greetings to you, my friends, I am Samuel.

You have wondered why some of these lessons were given: for instance the one on the formation of the planet. If you will recall several of the classes prior to that were in relation to matter and energy and this was a climax to that series of lessons. The formation of a planet would be about the ultimate in transferring energy to matter.

These things that are being given in classes on the higher planes are mostly things that have been known in your far, far past. So far back that the memory of them is so dim in your memory bank that it would be almost impossible for you to bring them to the surface. So as we have said in the past these are refresher courses and will be of great benefit to you in the times to come.

Some of this information will be released in your memory in this lifetime in this Age before it ends as some of it will be very beneficial to you, and there may be times when it will be a matter of your survival. Other parts of it will not be needed until the New Age is established and it will be released at that time.

Many of you who have attended these classes have the idea that this is information that is going to be used while you are in this embodiment. But this is not necessarily so. There will be many who will pass into the astral and then come again into the New Age. But this does not affect your knowledge nor the necessity for you having it, for the mind does not go with the body but rather with the spirit.

Many of the other lessons that are being given are on the balance that Man needs to develop and on the knowledge he needs to have about himself. He needs to know the difference between body, mind and spirit and between power, love and wisdom. He must learn to develop these phases of himself and bring them into balance for balance is the secret.

You will note the figure three appears in many of these phases: power, love and wisdom, the Trinity of God and the Trinity of Man and of the physical man, the Trinity of body, mind and spirit. It is the balance of

these that brings into being the Seven Spirits, as in creation. As the

Father-Mother God breathes forth, the Son is born or Love and as the Three breathed forth the Seven Spirits of Creation came into being.

So, my friends, when you have brought the power, the love and the wisdom into balance, your Seven Spirits of Creation will come forth. And when you have brought into balance body, mind and spirit, so will your Seven Spirits of Creation come forth in the physical and they will create for you a healthy, vigorous body, an active, sharp mind, spiritual understanding and growth.

Your life will become a happier, more prosperous and productive life. This can and will happen anytime, anywhere, that you bring the body, mind and spirit into balance for balance is the secret of all things. Without balance you would not be, and your universe would not be.

Nature functions to perfection when she functions in balance. The only reason there is imbalance in Nature is because Man has created it. Nature, in her natural course of events, functions perfectly. It is when Man disturbs her balance that her function becomes disorderly. Man sees many things in Nature as being imperfect but this is not so. This is only because Man does not understand its purpose. Nature has its natural cycles and as the things of Nature pass through these cycles, all things happen for the good of all.

So you see in creation things were created to function in perfection and only as Man tried to improve upon perfection did he find himself in a bad way.

So, my friends, it will be necessary for all to learn to bring about this balance. Man can never attain this balance until he overcomes greed, lust, hatred, jealousy and coveting. All of these things are not a part of balance and you can see in your world today the results of this imbalance. Learn to flow with Nature and not oppose her. When you flow with her, you find the road much smoother than when you oppose her or try to change her.

So, people of Earth, these are the things that must be overcome. These are the things that must be mastered. This is the knowledge that must be attained if planet

Earth is to find peace, if Man of Earth is to go forward
and become the being of perfection that he really
should be.

I leave you, my friends, by extending to each of you my
love and my blessings. I ask that the blessings of all
the Great Ones be invoked upon each of you now.

Go in peace, go in peace. Peace. ☸
