

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Zalhem: Greetings to thee, my children.

Children of Earth, be on guard, for the leaven of the Forces of Darkness are being thrown into every measure of life's meal and this poisons all that it touches. It will blight the soul as surely as the fumes of Diabolos. It is hypocrisy.

These men seem fair of voice but their hearts are diabolical. They think that thought can be locked within themselves. They do not seem to know that every thought and wish is photographed and recorded in the Book of Life to be opened at any time the Masters will. Thought and wish and deed that is brought forth in the darkest night shall be revealed in the brightest of day. That whispered in the ear, in the secret-most room shall be revealed in the street.

In the Judgment Day when the Books of Life are opened these men and all men will be judged, not by what they have said and done, but by how they have directed the thoughts of God and how they have used the ethers of eternal love. For these thoughts and ethers can be used to satisfy the carnal man or they can be directed to serve the Holy Self within.

These men can kill or destroy this body of flesh, but what of that? For nature, in but a short time, shall do her work. Their slaughters only hasten nature's work a short time. But when they have destroyed the flesh they have reached the bounds of their power. They cannot destroy the soul. Nature is the keeper of the soul and of the flesh and in the harvest day of soul, the Trees of Life shall be inspected by the Judge and those that bear no good shall be pulled up by the roots and cast into the flames.

Whom then, would you serve? Not he who has but the power to destroy the flesh. Serve the Mighty One who has the power to dissolve both soul and flesh in nature's flame. But man is king and he can direct his thoughts, his love, his life and gain the prize of life eternal. And in his search and struggle for the King of Life he shall not be forgotten, for God lives and so shall you live.

God cares for every living thing. He numbers stars and moons and suns and every living thing below. He

numbers angels, man, the birds, the trees, the flowers. He knows each petal of the rose by name and each is numbered in his Book of Life. Every hair upon your head and every drop of blood that flows within your veins. He knows by number and by rhythm. Not a sparrow falls without His knowledge and consent. A sparrow seems a thing of little worth. A score of them would bring naught in your market place, yet He cares for everyone. Does He not much more care for you then who bear the image of His likeness in your soul?

Fear not then to confess the Christ before the sons of men and He shall proclaim you as His sons and daughters before the Hosts of Heaven. But if you deny the Christ before the sons of men He shall not claim you as His own before the Hosts of Heaven.

And more I say: When you shall be brought up before the courts of your land to proclaim your faith, behold the Holy Spirit shall teach you in your hour of need the things to say in your behalf and the things best left unsaid.

My beloved friends, these are not my words. These were the words spoken some two thousand years ago by your great Master, Jesus, the Christ, to a group of His devout followers. But these words are as important today as they were two thousand years in the past. I would suggest that you think upon these words. Ponder them well in your heart and act accordingly.

I hope, deep in my heart, that the words that I brought to you tonight will have some impact upon your consciousness. If I have been of any service to you I am grateful.

I ask the blessings of all the great Masters and I ask the blessing of the great Creative Spirit.

May these blessings as they come to you open up new avenues of realizations, new avenues of understanding and a burning desire to serve your fellow man.

Go in peace, beloved ones. ✿
