Some members of our group decided that they would like to have a gold pendant made like our symbol.

As one of our members is a custom jewelry designer, he and his wife offered to design one which they thought should be about one inch in diameter. They decided to use a mixture of white and yellow 14k. gold as this mixture would absorb and hold vibrations well.

This, when completed and worn on a gold chain, was beautiful and inspiring to behold? We were all very grateful to this couple for creating this for us.

Although the labor and time and the metals that were required to make these were given in love, the gold in its refined state, is costly. So we wanted to give to them the approximate cost of the gold metals, which amounted to around \$45.00 each when completed with chain, etc.

We had been wearing this symbol for several weeks before we received from a Teacher, on 7/10 and 8/21, some interesting information about it, which appears on the following pages:

Questioner: Are you aware of our symbol?

Yaum: Yes, I am familiar with your symbol. I know that you have been impressed to do so. This did not happen by chance, it was planned that way. As you know you have been associated with some of the Teachers of the Silent Brotherhood and this is one of their ancient symbols. Now as to the whys and wherefores of your having been given this symbol or the privilege of having it and wearing it, I am not at liberty to reveal to you at this time.

I understand that you are to be given more information very shortly upon this from another source and I do not wish to—what is it you say—jump the gun on the Brothers. But you will be given more about this and the purpose for it and what the meaning will be to you, etc.

(Before Joseph spoke to us, he made a number of symbols. Among the first that he did, or the very first, was the circle and the cross, which he customarily does. We noticed, for the first time, that he made an "R" in the center of the cross. This he did also at the end of his talk.)

Joseph: My greetings to you, beloved ones, I am Joseph.

I know that you have been very curious to know more about the symbol that you have designed through impression. I will say only a few words tonight concerning all of this for we had planned to give you much more but in a different way.

This we had planned to do before this time but it has not been possible to do so thus far, due to conditions beyond our control. But we hope to be able to do this very soon.

I will say a few words concerning the symbol. You have followed well this design, those who were responsible for that. It is as we would have it for all of the details were important, even to the type of metal that was used.

Your people know very little about the characteristics of metal other than such things as hardness, workability, heat resistance—things of this type. But the vibrations that metal carries and its capabilities of absorbing vibrations and frequencies is something that is little known to your scientists or metallurgists. Yet this can be very important in selecting a metal, depending upon what you use it for. So your impressions in choosing the proper metal were well followed.

The R in the center of this circle and cross denotes that your Center is surrounded and encircled by the vibration of the Brotherhood. And of course this carries down to the individual who wears the symbol.

You will find as time goes on, the importance of wearing this symbol, keeping it upon your person, will be more and more beneficial and it will become of much greater value to you if your awareness is kept sharp and it will help you to keep it sharp.

But as I have said, I am not going to go into any more at this time except to tell you that it can be of great value and importance to those who wear it.

As I leave you I extend to each of you the sincere
blessings of love and peace of the Brotherhood.

Peace, peace, peace. ✿
