

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Teacher: I greet you, my children, and I bless you.

Before I speak further I should like to ask you: What do you seek in your search, in your prayers and in your silence? What are the uppermost things that you seek? Would you mind answering these questions for me?

Group: Peace, oneness with the all knowing One ... To be more loving, more understanding, a better channel of service, to serve my fellow man to the best of my ability, wherever the Father needs me ... Understanding.

Teacher: Is this all that you seek, my children? These are noble goals but I believe that you seek much more than this. I believe that you also seek health, prosperity, and many other things. All of these things my children, are available to you, for you see you live by law which was established at the time of creation. These laws cannot change, they are now as they have always been and always will be. If you are to receive well-being, peace, prosperity, then you must apply the law of giving these things. For as you give so will you receive. Few Earth men seem to understand and use these laws. Some use them without being aware that they are doing so but the law works for the just and the unjust, just as the rains falls upon the just and the unjust. But if you know and understand these laws it is much better and they can work much more effectively for you.

There are also those who know of these laws and use them for their selfish gain. But in time this too, will react through another law and will, turn upon them. Those who accumulate great material wealth through the use of these laws knowingly and are selfish and unwise in the use of their material gains, will find that it will bring them no happiness but will become a burden upon them and enslave them. More of your Earth people find themselves in this situation than those in the opposite situation. They have become slaves, so to speak, of materialism and this is the thing that is bringing about the downfall your civilization.

So when you use the law of giving use it properly. When you give of your material possessions or your service or whatever it might be, give with no thought of return. But give willingly because you want to give, you

want to serve, you want to be a part of His service. For only as you give in this manner will you be happy, will you be given the wisdom and intelligence to use that which you have in ways that will bring about to you joy and peace and happiness.

If you would attain higher spiritual development if you would attain closer a oneness with your Creator, greater health, peace of mind and well being, greater understanding, then you must devote portions of your time in seeking this. You devote portions of your time for man other things, such as acquiring the material things, recreation or personal pleasure. Then you must devote portions of your time in seeking understanding, in seeking peace, by going within and searching there. And as you do this, invite the Christ to come into your heart, to fill you with His love and His peace. Invite the Holy Breath to come into your heart, also, with Her wisdom, Her understanding.

Do this with great sincerity, with great desire and let this flame of love and of wisdom be kindled in your heart. Nourish it and make it grow and you will find that peace that you seek, you will find that love growing in your heart, you will find a new outlook upon life growing day-by-day. You will see things as you have not seen them before, you will see new beauty in everything about you and in all the people about you. You will find a greater understanding of His laws and you will grow stronger in all of these things day-by-day.

Serve your fellow man as you see the opportunity to serve. Each has the opportunities presented to him or to her day-by-day. It is your responsibility to see and seek out these opportunities and fulfill them.

Each will find himself or herself serving in a way that they can serve best. Serve to your fullest capacity in any way that you serve and do it willingly and happily. Then life will take on a new and different look, a new joy will rise up in your heart. You will find happiness and peace that you have not known before if you follow these few simple rules.

Life, my children, is not as complicated as it may seem to you. Man makes it so through his own manipulations, by his violations of the Creator's laws. When you follow His laws life becomes much simpler. Life was not intended to be complicated, it was

intended to be simple and you will find that all the Great Ones do not live a complicated life but a simple life.

May each of you find this way and may it bring to you the greatest peace, the greatest joy, the greatest understanding and the greatest oneness that you have ever known.

Peace be with you, beloved ones. My peace I give unto you. Take my peace with you. ☸
