

*Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.*

**Oxal:** Greetings in the Light, my friends, I am Oxal.

We have contacted you at this time for a special reason. We have aboard our craft at this time a visitor who spoke to you once before when he was a guest aboard our craft and he has consented to say a few words to you at this time. We love Mong Ling here and look forward to his visits with us. I give to you Mong Ling from the planet Venus.

I now step aside.

**Mong Ling:** Mong Ling here. Greetings to you there at Center R. It is our pleasure to once more have the opportunity to speak to you in this manner.

You of planet Earth are at this moment under the influence of the new cycle of the fourth density. By this I mean that at this time the influences of the fourth density cycle are predominant over those of the third density. This is the culmination of both a minor and a major cycle. The changes will be much greater than are those of a minor cycle.

It is stated in your Scriptures that you will have a new Heaven and a new Earth and this, my friends, is literally true. Great changes are about to take place in your heavens and upon your Earth. The Torch bearers have been chosen. The formation for the march is now being formed. Those who have been chosen to head the new Age have not been chosen for their religious affiliations. They were not chosen because they were a Christian a Jew or a Buddhist or what have you.

At the beginning of every age a Master Mind has come to Earth to point the way for that age and the followers of each of these have formed what you call religion. But if the true teachings of all of these were studied carefully you would find that their teachings are very similar. Each had a certain mission to carry out that was designed fit that Age. Each performed his mission as he was chosen to do.

The same will occur at the beginning of this age, but there will be this difference all of the teachings will be brought together. Man will no longer be divided in his concepts. He will understand the oneness with his Creator and with his fellow man and with all things. There will no longer be those divisions. There will be

but one God, one concept of God. There will be no separation of religion and science. All things will merge into one.

Man will understand that whatsoever he does unto another man he does unto himself and men will think in terms of what is good for all mankind and all creation. Man will have a mind of greater capacity. He will be able to conceive more of God's creation. His brain capacity will be greater—perhaps I should say his capacity to use his brain will be greater. Man of this age has only used a small percentage of it. But those who have been chosen have been chosen by their records, the records of the lives they have lived. Their thoughts and their deeds over the centuries have determined their qualifications. They themselves have laid the way. This is the only way to His Kingdom. There is no other way. Man cannot deceive himself. He may deceive others but not himself and as all of man's thoughts and deeds are recorded in his Book of Life he cannot escape the results of his records. For the Creator's laws are such and His laws are just. No one is condemned or punished by the Creator, only by the law, the law of cause and effect and this is inescapable.

It is sad that more of your peoples of Earth have not been aware of the changes that are coming about, of the choices to be made. They have had the opportunity to become aware but they have chosen not to. They would rather eat, drink and be merry than to serve in His Light and if they so choose, this is their choice and none can change it.

But for those who have made the choice and those in other areas of your solar system who are aware of these things and why these things are taking place, among these there is great rejoicing for they know that another great step has been reached on the ladder of evolution and that they shall stand upon the crest looking into a new and greater future, a more abundant life, a more joyous and happy life.

We of the planet Venus, have a great interest in planet Earth. We have been watching its progress closely. Many of us often come to your planet to help in various ways though you are not aware of it. We rejoice with those who have made the choice, those who will be

present in the new density and we also sorrow for those who have refused to take the step into the light.

It has been my privilege to again address you there at Center R and now I leave you I would like to extend to each of you my most sincere blessings, my love and my Peace.

Peace be with you, beloved ones. Go in Peace. ☸
