

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Peace be with each of you this night, beloved ones.

I come to you tonight to attempt to bring to you some peace, some love and I hope I may be able to strengthen your faith. I know that some of you here this night have heavy hearts. And if I can lighten those hearts in some slight way I shall be grateful.

My beloved ones, when times are dark, when the clouds appear upon the horizon, it is then that we must be strong in our faith. It is then that we must place our trust in our creator. It is then that we must seek the help of our Elder Brother, asking in his name through Christ, that he might intercede for us.

I have great faith that if you do this, your problems and your loads will become much lighter and will solve themselves much faster and in a much desired harmony. Do not think, oh beloved ones, that your great heavenly Father, His angels, and His many, many workers cannot help you in your small problems when they handle and solve the problems of the Cosmos? Oh ye of little faith, be grateful and thankful in your hearts that you know these things and that you have someone to turn to who will help you to solve your problems, if you will but give them over to his keeping. Or do you not believe this? It is easy to profess faith but to put it into practice seems to be another matter.

If you have the faith, if you ask in love and in understanding, and in full faith and then follow your guidance. Be aware of that intuition, of that still small voice from within, and if your faith is great enough, that voice will cry loudly to you. The biggest problem with Earth people is that they do not listen. Too much time is spent in voicing and too little time in listening. But, I say again to you, ask sincerely in his name through Christ, with a strong faith, and he will give you the answers.

In the days to come, many of those who are attempting to walk in the light are going to have their faith tested. For if you do not use your faith, if you have no occasion to use it, how can you prove it for yourself and others? So, I say to thee my friends, you have the opportunity to demonstrate your faith. Make it work. For until you can make yours strong enough to work for you, you cannot help others to develop theirs.

In departing, I would say this to you, that if you follow these rules, I feel quite sure that the problems that are plaguing you will fade away.

I leave you by extending to each of you my love and my blessings. May you, through every opportunity strengthen your faith and your spiritual power so that you might demonstrate and prove to those about you that the words you speak are truth.

Peace, Peace, Peace. ☸
