

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: Greeting in the light, I am Oxal.

We did not make our usual contact with you at the beginning of this year due to circumstances that were requiring our attention at that time. However, we have not forgotten you. It is my pleasure to once more have the opportunity to speak with you. As has been our custom concerning you here at Center R at the beginning of the year. I shall make a few remarks regarding what you may expect in the coming year. Your weather conditions will not improve but rather will worsen. You can expect more storms of great magnitude. The conditions will continue to gradually worsen. Your food situation, due to floods and droughts throughout your planet will continue to worsen. Some parts of your planet will experience famine situations and due to scarcity you will find your foods increasing in monetary value.

According to our readings and calculations the pressures upon the fault lines along your Western coasts, namely the San Andreas, are increasing. The tension is becoming very, very close to the danger point.

We do not say these things to put fear into your hearts, or discouragement, but only to prepare you for what is ahead. We had hoped many years back that more of your peoples would make a choice in the right direction and that many of these things might be avoided. But this has not happened in great numbers. In the greater numbers the choice has not been wise they have chosen to serve the lower self, rather than to become a servant in His light, to serve their fellow man. One can never gain wisdom or spiritual understanding in the service of self. It is only the selfless that reach His Kingdom.

We, many years ago, in approaching some of your governments and world leaders pointed out many of the things that would befall them, many of the situations that they would find themselves in. Yet, they would not believe. They were so engrossed in serving the lower self, in gaining power that they could not comprehend. We pointed out to them that in a few short years they would find themselves in need of new supplies of energy, that the increased demand upon

the supplies that they were now using would begin to be depleted and be inadequate to supply the demand. They would not listen. But now daily you begin to hear on your news media that your shortage is increasing, that your supply is running out, that it is necessary for you to conserve. Yet they have made no effort to discover new sources.

It was pointed out to them at that time that we had knowledge of greater supplies, of inexhaustible supplies, of supplies that could be had cheaply without great investments. But they did not believe us. Now your people are finding themselves in a situation that is going to bring hardship. The depletion of your soils is bringing food supplies to you that are not nutritious, that is putting poison in your bodies. All of these things are due to man's lack of foresight and man's desire for power and profit.

As you draw closer and closer to the end of this age, you are going to find that you will be faced with many things. This should not be new to any you for it is all prophesied by your Ancient Ones and now is the time that these prophecies are being fulfilled.

We have said before and I shall say again people of Earth, prepare yourselves, walk in the Light. Follow the teachings of your great Master, the logos of your planet. Walk in His footsteps place your hand in His that you might walk in the days to come in the protection of His Light. For has it not been said that those who walk in His Light shall be protected, that a thousand may fall upon your right, ten thousand upon your left, but none shall come nigh unto thee. These, my beloved friends, were not empty words. They are words of Truth and this is why we have urged Earth people many times in the past to serve in His Light, to make this choice and to pray that they stay in the Light. This is why, as is described in your Scriptures, that one shall be taken and one shall be left. He who walks in the Light will be taken and will be protected, he will not fall with those who walk in the darkness,

May each of you walk ever in His Light, never faltering, never wandering to the right nor to the left but treading always on the straight and narrow path which is His path.

I leave you now, my friends, by extending to you the
love, the light and the understanding of my people.

I am Oxal. ✨
