

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Samuel: Greetings to you, my beloved children, I am Samuel. It is my privilege to once more come among you. It is our privilege to be of service whenever and wherever we can.

With your permission I should like, for a few moments, to talk about Earth people in relation to their religious festive days or as you call them, holidays.

It amuses us, yet saddens us as we observe Earth people at these times. For instance at this time you are celebrating what you call Easter or the crucifixion and the ascension of your Great Master from what you call death. Earth people spend much time and much of their financial resources in preparing for these days. They attend religious services in great numbers at these times and between times spiritual things seldom enter their minds. Many go because they think it is the thing to do at these times. Many go to display their newly acquired fineries. Yet few of them leave the service knowing what has been portrayed. Even their minds are not upon the activity they are attending but rather they are filled with carnal things and their concern for such.

Even your religious institutions look forward to these times in terms of monetary gain rather than what they can do in the way of giving their people a greater understanding of the true meaning of the events that they are talking about. Few of your religious leaders or clergymen have an understanding of the deeper symbolic meanings of these actions. Few of them delve deeply enough into the activities and the works of the great Master to understand more than the literal meanings. The true symbology goes unrecognized and misunderstood.

Do you think, O people of Earth, that this Great Master came to your planet and went through all of these events, which were not a pleasant thing for Him, without leaving some true, deep, symbolic meaning? But He also knew and understood that few would understand, that few have the eyes to see and the ears to hear that would give them the true meaning.

So in reality His sacrifices were made for the few and not for the masses and this He also explained to His disciples many times, that they could not expect to

reach the masses. But He also emphasized the importance of saving one lost sheep, the importance of each individual. And though in the harvest they reap but a few they still have accomplished much, for each individual is important in the eyes of the Father. None is truly lost or permanently lost. Sooner or later they will be found, they will return to the Father and will be received with open arms.

So we say to Earth People: If you would go to the Temple to worship and to learn, then the Father will recognize you and your purpose and you will be rewarded with that which you seek. But if you go only to be seen and to impress, you will not receive and neither will you be recognized by the Father. Only those who seek and search sincerely will find and for many it has taken eons of time for them to realize this- and for many more it will take eons of more time. So, people of Earth, the choice is up to you. The longer you take the more difficult will be your path so choose wisely that your burden may be lifted and your yolk lightened. This, my friends, is my message to Earth People at this time.

Go in Peace, beloved ones, go in peace.

Peace, peace. ☸
