

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Zalhem: Greetings to you, my children, I am Zalhem.

I would like to say a few words to you about perseverance. We have tried to give to you, step by step, the information and knowledge that would help you to grow and evolve in the right direction. All of you need to realize that you have great potentiality, and to reach that potentiality you have to work at it, and you have to work on the constructive side of Nature if you would grow and develop.

It is so easy to slide back into the old way of doing and thinking, and viewing things from that angle. The fact that one doesn't reach a goal as quickly as he would like or think that he should, is usually because he or she does not persist in pursuing that goal. You go along for awhile and then you begin to ease off, and when you start to do that you back off more and more and the first thing that you know you have forgotten the goal. If it doesn't manifest quickly you lose your enthusiasm.

But if you will look about you at the egos who have made great achievements in whatever field it might be, it is because they persisted and never for a moment doubted that they could accomplish their desire. The degree of concentration in some cases, depended upon what their goal was.

Many handicapped cases have overcome almost unbelievable odds and have made great accomplishments. Many have put all of their efforts into it and they overcame. So, you can be what you want to be, but you must persist in pursuing that goal until you have reached it. The fact that you have many failures along the way, should not deter you in your pursuit.

One may not acquire their goal in full in one life time, but if it is important enough to you, you will not forget, and will pursue it later or you may never stop pursuing it.

Now, my friends, I must leave you. It has been my pleasure to spend this time with you. I hope I have been of some service.

Questioner: You have, thank you.

Zalhem: May the blessings of the Great Ones be bestowed upon you now, and may you persevere in the pursuit of whatsoever your goal might be.

Peace, beloved ones, peace, peace. ☸
