

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: Greetings in the Light, my friends, I am Oxal.

For the benefit of those of you who are new in this group tonight, I shall briefly acquaint you with our people. We are aboard a craft known to the Confederation as the Otavana. Our peoples are not of your solar system, but have come here to aid in the transformation of your system and your planet. We are concerned primarily with your planet, for yours is the only one in this system that is not prepared to make the changes that are coming about at this time. We have been in your system approximately eight years in your time. Our craft has traveled your system many times previously. It has been viewed by some of your ancients. We are here to help you. We understand your problems. We understand why you face the situation that you find yourself in at this time. We are grateful to be of service to your system and your planet. This task is not an easy one, for your peoples, by and large, are difficult to reach.

Your creator, in creating this great Universe—I use this term for a lack of a better one to describe his creation—but, as your creator brought forth these great creations, as he extended himself throughout infinity, setting up a process of creation which goes on and on and is never ending. He also created the laws by which this creation was to function, and, beloved ones, all does function by law. Your creator does not decree the destiny of man, for in his creation, man was given a will, and this will was to be free, so that he might ever have the choice to make for himself, so that he might bring about the conditions that he desires.

Man was a creation of the creator in his own likeness. He is in reality the extension of the creator himself. Man was endowed with the same creative power of his creator, and many of the beings of his creation, through their desires to experience new and different experiences, have brought themselves into darkness.

Through eons and eons of what I shall call time, many of these or perhaps I should say, all of these in various stages of evolution, are seeking their way back to the original creation, and through this process, man gradually comes out of the darkness by experience, by experiencing all things. And as man uses these

experiences, as he learns from them, as he likes these experiences and uses them to remove the darkness, he begins to come into light.

Today, the dark clouds are many about planet Earth, and this indicates certain things for your race of people. Your people have chosen to live in darkness. Thus, they have created about them a future of darkness. We, as have many others in many realms of life, are attempting to remove this darkness from people of Earth, so that they might see the light and come into a realization of their oneness with creation and the laws that govern these things.

You see, my friends, darkness is only lack of understanding, of knowledge or wisdom. Earth people, by and large, have not been able to rise above old customs, beliefs that are false. These are much greater in their consciousness than are the truths that are before them. The destiny of Earth man will be as he chooses. If he is willing to come out of the darkness, to remove himself from the hypnotic state in which he has placed himself and begin to see the truth for what it is, his destiny can change rapidly. We cannot force your people to do this, we can only suggest and help those who are coming into the light, who have made the choice to come out of the darkness to seek the truth and to increase their knowledge and wisdom, who are willing to take the responsibility of their destiny upon themselves and not sit waiting for someone else to do it for them. For this, people of Earth, shall never happen. Man holds his own destiny within himself.

We hope enough people of planet Earth will come into a realization of the necessity of doing these things, that their civilization might transform itself into a civilization of people through their wisdom, their love for their fellow man and their creator, will cause them to bring about conditions that will enable most of the people of Earth to make the transformation into the new Age, the new vibration in which your planet and your system is moving. Already, planet Earth and your solar system have crossed the threshold into this new Age or new era of space. The new influences and vibrations are already being felt by your people. The reaction varies according to the understanding of each individual. Therefore, the reaction varies from person to person. But as you move farther and farther into this new era,

more and more evidence shall be seen and felt by your people, and this transition can be as easy or as hard as you care to make it. So, beloved ones it behooves each to put forth every effort to expand your consciousness, to come into more and more of a realization of who and what you are, to do the things that by Universal Law will bring to you that which is pure, that which is good and to dedicate yourself wholly and completely to the service of your fellow man and your creator.

Continually weed out from your consciousness all thoughts of hate, greed, jealousy or anything that is not of a positive nature. When these things come forth in your consciousness, immediately cast them aside and replace them with that which is of the opposite. For those who would be the seeds for the new creation of the new civilization that is to spring forth on planet Earth, there must be brought into being a consciousness of love. A great Brotherhood of Man must spring up where each will have some realization of his a oneness with all creation.

I leave you, beloved friends, by extending to you the love, the light and the understanding of my people.

I am Oxal. ❧
