

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Nathaniel: Greetings, I am Nathaniel.

I have a few moments to spend with you if you have a question.

Questioner: How can one be sure if their guidance is from their Higher Self?

Nathaniel: You should ask Deity to show you what is right and it can be shown through meditation, through your own intuitive reception. I think that any move or change that one makes, they have to feel right about it. It must be something that you feel right about, you feel good about and you have no doubt in your mind, after giving it due consideration and meditation. And then if you still have this strong feeling and urge—some call it a “gut feeling”—then it is something that you should give great consideration to.

Weigh all of the circumstances, pro and con—such as how will it benefit you, how will it be beneficial in helping you in your evolution and in giving you great opportunity to serve your fellow man? All of these things must be considered and make sure that it is not something that you just desire for your own satisfaction. Or something that you desire that will give you greater prestige or recognition. These things must be considered from all angles.

You must also search your own soul for your intent. Ask yourself, “Why do I desire to do whatever this might be”? I am not particularly pin-pointing what your desire might be, but in any desire of this type you should make sure in these ways.

And when you have done all this and we find that the benefits outweigh the obstacles or the objections, then we can be quite sure that it is the proper thing to do.

I leave you by extending to you my peace, my love, and my blessings.

Go in peace. Be peaceful, be calm, be joyful.

Be Peace. ☸
