These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Samuel: Greetings to you by beloved friends, I am Samuel. I am aware of your conversation and discussion this evening and I will make a few remarks regarding some of the things you've discussed.

The first civilization to develop upon planet Earth was a civilization of mostly perfect individuals in that they understood themselves and they understood the laws. They had knowledge of all the Universal Laws. They understood their heritage and made use of all of Man's God given abilities.

They had no language as you know it. They communicated telepathically. Thoughts were received in the form of mind pictures and therefore, there could be no doubts or misunderstanding in a communication between two people or any number of people. If they wished to contact anyone anywhere upon the Earth, they merely concentrated upon that person to get his attention. Once this attention was aroused and the person made themselves available, or receptive, the communication could proceed and complete understanding between the two was very easy to accomplish. Not having words, their writings were drawn in symbols, in artifacts as you call them, or picture words. That is why it has been so difficult for your scientists to interpret these writings.

But through time, and misuse of these powers, they were lost to Man. For Man can only misuse Universal Knowledge for so long and it will bring upon him destruction and loss of these powers. By and large, this has been the main cause of the downfall of the great civilizations that have developed upon planet Earth. But there have always been a few of the faithful who have maintained this knowledge and the records of the past, and handed them down through the ages. All of these records and teachings are still in existence in a few places upon planet Earth.

The goal of mankind is to reach perfection. Perfection cannot be reached without this knowledge and understanding. One cannot grow into perfection until one understands oneself, until one knows who and what he is. When one has this knowledge, when it has been accomplished, he will also have the understanding of all Universal Laws and he will be able

to function within these laws as a perfect being if he so desires.

Man, having free choice, has often chosen unwisely. He has allowed himself to be taken over by that lower self or the desire self and has allowed this desire self to control him. As he does this, he sinks into a state of materialistic consciousness. Materialism becomes his god and master. But if Man will rule the desire self, become master of it, then, and then only, can he reach perfection. This is the goal of all Mankind. Man can only come into his rightful place in the Universal Plan when he has gained the knowledge of these Universal Laws and has become master of them and master of himself.

This is why Man is being given the chance again to come into that state, to reach this point in knowledge and wisdom. You will find that when this point is reached that all of this knowledge will become very important to you and be a part of your everyday life. This knowledge will be in general use in the times to come. But wisdom must be accomplished and Man must use this wisdom in his use of these laws in order that Mankind can again return home.

Mankind has drifted through the portals of materialism long enough. It is time to come home. This is why those in the higher vibration realms are doing all they can to bring this about. Our love for you of Earth is a greater love than you can possibly conceive of at this time. But the time is not far off when we shall come together in this love and really have an understanding of each other and ourselves. Then will the heavens ring with the music of the spheres and you will know once more the great joy and peace that is available to all.

Beloved, I bestow upon each of you, my love and my blessings, and may all the Heavenly Host pour forth their love and blessings upon each of you now.

Peace be with you my friends, peace, peace. Go in peace. ☸
