## December, 15, 1973

**Yaum:** Good evening to you, my friends. It is my privilege to be with you again at this time. I had a few moments to spare so I decided that I would spend them with you here, since I will probably not get a chance to speak with you again this year. I would like to extend to you my greetings and wish you all a very happy Christmas and New Year. I should also like to extend my special greetings to our new guests here tonight, and say that I am honored to be in your presence. Now, my friends, what would you like me to talk about tonight?

**Questioner:** We wish you could be with us at Christmas. Do you have plans for that time?

**Yaum:** Well, I have to see you when I can because I am very busy in many ways. Your world situation today is such that those of us who are working as I am, are very, very busy following all of the events, and trying to bring about influences wherever we can, to improve the situation. So our time is very occupied.

**Questioner:** Would you like to comment on the status quo?

**Yaum:** Well, there is so much transpiring today upon your planet, which is leading up to the culmination of the age, and of the times which have been foretold in your ancient prophecies, and in some of your latter day and present day prophesies. The situation in the Middle East is very, very serious. It is one that has to be watched very carefully, for it can through certain events and misunderstandings become, more serious. To go into all of the situations, their causes, effects, et cetera would require more time than we have here tonight and perhaps would not be of much value to you anyhow, as there is not too much that you can do about it.

**Questioner:** I understand that you originally came to Earth from the planet Nay-boo-doe, is that correct?

**Yaum:** This is true.

**Questioner:** Could you tell us anything about life there?

**Yaum:** Of course, this is in another solar system, and life there is much different than it is here on Earth, because the people there, are of a different nature and

vibration, and are of a different level of development. There would be no comparison as to the life there, because they are individuals who operate upon a different level of understanding. They have a greater understanding of the mind and it's power, and how to use the universal energies. For instance, they have space travel, and it is of no problem to them because they follow the laws of nature, God's laws. Once Man understands this and cooperates with the law, rather than opposing it, things become much simpler.

You see, the problem with Earth man is that he tries to do everything the hard way. He opposes nature, instead of studying nature closely to learn her laws and see how she operates. He tries to develop his own powers. In your various kinds of transportation on Earth and in space, you by are opposing nature in everyone of these. You are using power that blasts off. You have to blast everything, you see, and this is not necessary if you know the laws of nature, and can use the powers or energies that are already there and it becomes very simple. Then you do not have the pollution in your air, water, et cetera, that has developed upon your Earth. Also, as you follow nature you learn a great deal about yourself, too, because you are a part of nature, and you function through her laws.

The energies of your planet that are brought through from your Sun and other planets, are the life sustaining energies, and you have not learned to use these. If these, energies were kept flowing to your physical bodies in the proper manner you would not have sickness and all of the problems that you have in maintaining a healthy body.

Man of Earth continually tries to improve upon nature, and you cannot improve upon nature because these laws have been set up, you see, and unless you follow them, and cooperate with them, you have problems. This is a mistake that many of your people make, as they begin to discover some or the things about the power of mind.

For instance, thinking positively and ignoring a problem will not solve it. You see, you need knowledge to go with this, and wisdom. Unless you have knowledge and wisdom, all of the positive thinking in the world is not going to solve your problem. That is why you have the problems that you have. It is well to keep your mind

positive, and to think positively, but you have to act positively, too. You have to make efforts to learn to cooperate with the laws. You live in a world of cause and effect, and when you oppose a law, break a law, this is a cause, and you are bound to have an effect. You people of Earth have ignored this situation. Upon our planet we do not do this. We cooperate with the law, and we have no pollution problems. We have no sickness.

**Questioner:** Are you able to keep in touch with your people on Nay-boo-doe?

**Yaum:** Oh yes. I am able to do this. I have returned many times since I have been here.

**Questioner:** Does your planet have an avatar, as we have in Jesus, and are you in the same galaxy as we are?

**Yaum:** Yes, the same galaxy, but a different solar system. We have our chain of command. We have beings of various levels of understanding upon our planet, but the lowest level of understanding there, would be much higher than the highest level of understanding upon Earth. I do not say this to boast. I am only trying to explain. There are many other planets the same way, and there are many others more advanced than we are. There are all levels of understanding. It would be difficult to try to describe. There are many who are far beyond our understanding.

**Questioner:** Would Oxal and his people be able to land on your planet?

**Yaum:** They would be able to come upon our planet yes, and function there very easily with no problems, but they would not be able to come upon your planet, nor would you be able to go aboard their craft, or go upon their planet. They have a different vibration, atmosphere, gravity, etc. Everything is different there.

**Questioner:** Do your people take on energy through food and drink as we do?

**Yaum:** It is somewhat different. We have our fruits and vegetables and grains, etc., but they are somewhat different than yours, and they are also of a different vibration, and are suited to the people of our planet. We do have physical bodies there, but again, they are of a different nature than your physical bodies, being adapted to that environment. People there use their physical bodies on that planet, and they can also lay them aside and travel in the spirit body.

**Questioner:** Could this be compared to the level of life on the planet Venus?

**Yaum:** There are comparisons, but it is very difficult to explain the difference between each one.

**Questioner:** I understand that it is on Venus that one overcomes the Soul.

**Yaum:** Venus is one of the higher planets of this solar system. It would be the next step from your physical life here on Earth to the physical life upon Venus, and it is there that much of the overcoming of the Soul takes place and also the joining of the Soul. This is where the joining of the two halves takes place, you see.

**Questioner:** Could you elaborate on this for us?

**Yaum:** I believe that you are all familiar with 'the Soul being created as both positive and negative in the beginning, and then being divided. This was symbolized in your religious histories as God putting Adam to sleep, taking Adam's rib, and creating Eve. This is symbolic of the division of the Soul, the object being that the Soul would develop each half and return again after the completion of it's lessons on planet Earth, or the overcoming of the physical, so to speak. It will return to the planet Venus, where there is much learning and much overcoming to be done before the two halves can become as one again.

**Questioner:** I don't wish to be personal, as I know that you don't care to talk about yourself, but has this already taken place upon your planet?

**Yaum:** Yes, we are already androgynous. So I am expressing upon your planet in a positive body, but I am in reality androgynous.

**Questioner:** I have heard it has been said by some teachers, though not by ours, that there is a point of origin of a Soul. Is this true, and is Nay-boo-doe your point of origin then?

**Yaum:** You see, in order to accommodate all of the spirits that fell, creation was brought about. The various planets were created, and this creation took place at the time of the fall, so as this progressed there were many solar systems, galaxies, et cetera, that were formed to accommodate. The greater beings of greater foresight knew what this was going to develop into, and they tried to warn all of you and ask you not to do this, but you were very inquisitive, and you had to find out. Because Man had free will, he could not be prevented from doing this. The Creative Spirits had to cooperate, and so they created what was needed. This is described in some of your writings, and I am sure you are familiar with this.

**Questioner:** Did your people fall, too?

**Yaum:** Oh yes. Otherwise we would not be where we are, but we have gone farther on our way back than many others, and there are those of all levels of evolution in various solar systems. You happen to be the lowest one in your solar system, but there are solar systems that have physical beings on them, who are at a very primitive level of development, who have not progressed scientifically, perhaps having just discovered the wheel.

Since all spirits did not fall at the same rate, some reached the bottom before others, and started back.

And of these, some have moved faster than others. Some have been wiser and so moved faster than others. Now, your planet is moving into a new Age or a new area of space, whichever you would like to call it, where you will be subject to different types of vibrations, which are going to bring about a great change upon your planet. Your people are going to be different. They are going to have greater minds, a greater capacity to understand. Each Age brings an advancement, you see.

This is why a great Master mind always comes to your planet at the beginning of every Age to bring the message for that Age so that the people will have something to work with. Jesus came at the beginning of this Age, Buddha at the beginning of that Age, Krishna at the beginning of that Age, et cetera. Each had their message to bring and their work to do. Jesus was the only one of this group that demonstrated the overcoming of death, and the transition as he made it, and he has won the top position so far as this planet is concerned. He will soon be returning again to prepare you for the New Age and bring you the message for that Age. Now many of your metaphysicians do not believe this. They believe that Jesus will not return at all, that this is a symbolic thing which takes place within the individual. Well this is true, too, you see, because Christ can return and come into the heart of the individual at any time. But this is not the same thing. This is the Christ, not the man Jesus.

Jesus attained Christ-hood. He became a Christ, but Christ means Love, and this was the message that Jesus brought to your planet at that time, the message of Love. This was a necessary thing for this Age, that Man must learn to love. He must learn to love his fellow man, to understand him. This was the message for this age. True, your masses have not done very well with it. Few have understood his message and tried to put it into practice, but this is the meaning of the Christmas story. This is symbolic of the Christ being born within your own heart, and being brought to maturity.

This is the message for your Age, to accept the Christ Love into your heart and nourish it to maturity, to understand it and to be able to express it. Man is responsible to his fellow man more than he realizes, and man is tied together in many more ways than realizes.

This is why it is necessary to love one another, to understand one another, because not one, thing happens upon your planet that does not affect every human being upon your planet. Not only does it affect every human being, but it affects every living thing to the smallest creeping thing. All life is tied together by an etheric cord, and this is what your Master Jesus meant when he said that when you injure one of the smallest creeping things, you shake the throne of Heaven, because all things that live have some connection. Your science is beginning to prove this,

even with your plant life, having discovered that it responds to mental actions, to love, to hate, and to fear. Man is gradually beginning to gradually learn those things and to get some inkling of what is happening, what is going on, but he has a great deal to learn yet. He has only scratched the surface. One example is in the art of healing. Your medical profession has not even scratched the surface in the art of true healing.

Drugs are not the answer. Understanding is the answer. It is necessary for man to understand nature, and the energies of nature, and how to use them for their benefit. They are all there and were put there for this purpose. Many of your ancients understood these things and used them, but through the greed in Man's development of his great desire for materialism, through his hates, his jealousies, those arts have been lost. In the new Age they will be found again, and Man will be able to benefit from these things and use them in the proper way. Man will be a much happier being. He will use them for healing, to travel, to do everything. He will learn the laws of nature, and how he can use these things for the good of mankind.

These laws must be used for the good of all mankind, and not for the good of a few, and be available to all mankind, not to a few. These are the things that man to lose his knowledge. This has brought about the destruction of civilizations past. This is one of the lessons that Earth man must learn. He must learn the unimportance of self.

**Questioner:** Is Acupuncture a very good form of healing?

**Yaum:** Yes. This is a much better form of healing than the drugs that are used by your medical professions, and so is using the art of healing by directing the universal energies.

**Questioner:** How can this be done?

**Yaum:** This is an ancient art which takes a great deal of study and ability but these powers can be also be used for ill purposes, you see. If man misdirects these powers, uses them for selfish purposes, then he will find himself again in trouble.

As I say, the misuse of these laws has brought about the destruction of past civilizations before and this is what man must learn before he can come into this knowledge. These perhaps could be called occult laws, your master Jesus was well versed in these laws.

He knew how to direct these energies. He used universal energies, and knew how and where to direct them. There have been people on your planet, who have had this power, that have done great work with it, but they have received mostly ridicule and condemnation from your professional people. Few will accept them.

**Questioner:** Does one have to possess natural talent in using these energies or can this be developed?

**Yaum:** It can be developed. It takes study and direction, but there are those who know these laws and can teach them, but they are not accepted in your society.

**Questioner:** Is this the same as visualizing and then directing the light energies?

**Yaum:** This is part of it, and you have had in your own groups here, the use of these energies demonstrated. This should be proof to you that they do work. But, you see, your society is not ready to accept this sort of thing. There is more and more of it being brought forth today upon your planet, and it is being more accepted than it was So the past, but still your professional people, by and large though not all of them, are fighting this sort of thing desperately, because this cuts across their own activities, across their own power.

**Questioner:** Is faith active when those energies are directed and these healing take place?

**Yaum:** Well, faith has something to do with it, but a Master Mind, who understands these laws and is able to use them does not necessarily have to have someone who has faith. You have seen this demonstrated. You have seen people healed completely of what your medical science calls incurable diseases, who were non believers. Is this not true?

**Questioner:** Yes, this is true.

**Yaum:** Yet, they have been miraculously healed. Usually this brings about a conversion in them, in that it makes a believer out of them. And this has happened to a number of your medical people, your doctors. It made believers out of them, but it did not make believers out of the profession as a whole.

**Questioner:** Are you familiar with the book, "Science of Being" by Eugene Ferson, and the technique that he teaches to make physical and mental use of the universal life energies?

**Yaum:** No I am not familiar with the special technique, but one who understands this is able to tune into the universal energy and draw the type of energy that is needed for a particular person, and he knows where to direct the energy. He is able to pick up the vibrations of this person in various ways, by listening and by mental development. He is able to tune into this person and know what particular type of energy is needed and where. There are certain points upon the body, where the energy enters and is supplied to certain other parts of the body, and it may not be anywhere near the part of the body that is affected.

**Questioner:** Acupuncturists know these points, don't they?

**Yaum:** Yes, they know these locations and it is the same way in directing the energy. One who is able to

do this knows where to place his hand to direct the energy. For instance, it might be down on the toe to affect some part on the upper body, but he knows these points and the type of energy needed. This is an art, and it takes a great deal of study. Your Master Jesus spent a great deal of time with some of the Master healers of the world at that time learning these techniques.

**Questioner:** Was this taught in the mystic schools when you were there.

**Yaum:** Yes, it was.

**Questioner:** Is there any way for Earth people to learn it now?

**Yaum:** By and large, Earth people are not ready for this yet. but if one who was ready could go to a teacher, it would be possible to learn.

**Questioner:** Could you teach us?

**Yaum:** No, not in this way I could not. You would have to go and practically live with the teacher perhaps at one of the Mystic Schools, and there you would be taught. And of course, you would have to have certain qualifications in order to be given these secrets.

**Questioner:** This would require a certain level of Soul development, would it not?

**Yaum:** Right, for as I have said before the reason the secrets have been kept of many of the occult laws, is because they would be dangerous in the hands of people who lacked the wisdom and the love to handle them.

**Questioner:** What do you think of the "Philippine healers"?

**Yaum:** This is another type of healing. It is not successful for everything. It is successful for many things, but it is not as complete, that is, it cannot be used for as many things as the energies themselves can. I would prefer the energies, because they are more effective, they are more sure, and if one who has more serious problems will follow through on the treatment by one who is able to do this, their chances of complete recovery are much, much higher.

**Questioner:** Then after the healing one would have to use the herbs, grains, and natural foods to maintain that. Is this correct?

**Yaum:** Right. If you go out and do the same things over again that caused the problem in the first place, you are going to have it return.

**Questioner:** You once told us that for every conceivable disease or malfunction there is a cure in nature, didn't you?

**Yaum:** This is right, and if one would feed his body properly, stay away from the poisons that are in all of your foods today, and drink properly, you would not

have illness. Man's body, in order to function properly must have proper nourishment. You cannot fill it with poisons all the time from your foods and from your thinking, and expect it to thrive. It is bound to malfunction.

**Questioner:** Herbs and certain natural foods do have medicinal value then?

**Yaum:** Oh yes. If your drug companies would produce their medicines from pure natural herbs and plants, they would be much more effective than their drugs, and would not have the side effects that you get from the drugs. Drugs are only putting more toxins and poisons in your system, and bringing about more problems.

**Questioner:** When do you think that we might have peace on this Earth?

**Yaum:** Not in this Age. In the new Age you will, because Man will learn. He will have a greater brain capacity, and he will realize that wars never gain anything. They can only bring about more wars. Wars are only a result of greed and a struggle for more power, and they only bring about more destruction, more hatred, more wars. But people of Earth have many undesirable things to experience yet, before they will be ready for the new Age in its fullness. It is only a matter of cause and effect, cleansing your planet, so that man can start over again under a new vibration, and bring about an Age that will be one of Justice and Brotherly Love, when Man will work for the good of all mankind rather than for the good of himself.

**Questioner:** How will this cleansing be accomplished?

**Yaum:** This is accomplished by nature through her own processes. It has happened before upon this planet, that whole continents sank and new continents came up. Most of the civilization was destroyed in moments. The depleted land went down, and the replenished land came up. You see, most of your minerals are now in the ocean. Man has worked them out of the land, and allowed them to wash out, and they are in the oceans. So in order to be replenished, this land must go down and the replenished land must come up. It is that simple, and nature has her ways of doing this. through earthquakes, the tilting of the poles, etc. Your scientists have uncovered evidence that this has happened several times, and they have no doubt that this will happen again, and it will, and soon.

**Questioner:** It has been predicted that there will be a bad earthquake in California. Do you think that is rather imminent?

**Yaum:** Oh yes, and there will be many severe ones develop in places where earthquakes are practically unknown. But California, as are parts of Japan, is sitting on a great fault line, which is bound to rupture sooner or later. They are also on a shelf, where they can very easily go down.

**Questioner:** Will this be soon?

**Yaum:** It will be before the turn of the century. That is about as near as I would like to estimate it.

**Questioner:** I have heard that around the year 2,000 is supposed to be the beginning of the true brotherhood of Man, is that true?

**Yaum:** Around the turn of the century, after the cleansing, will be the real beginning of the new age. You are already partially in the new age. You are on what they call the cusp, where you have the overlap, and before you move out of the overlap into the new Age, all of this cleansing will take place upon your planet. This has been described in your holy Scriptures. You will have a new Earth and a new Heaven, for your Heavens will also change.

Now, my friends, I have spent considerable time here. I do not wish to bore you. I would like to express my gratitude for the privilege of coming among you, and for accepting me into your household. If I have been of any help to you, I am happy. I can only share my understanding and if it does not agree with yours, or you cannot accept it, I will not resent this in any way, because everyone is a free being and can accept only what he can understand at that time. I do not claim to be all wise, to know all things, I only share my understanding. If it is of any benefit to you, I am happy.

**Questioner:** We are grateful to you, Yaum, and our hearts and our love will be with you until you return to us in the new year. Thank you for spending this time with us tonight.

**Yaum:** May each of you in your search for Truth grow rapidly. May each of you find the place that has been designated for you in the Father's work.

I ask that the blessings and the love, the peace of all the great Ones be invoked upon each of you now. May that Christ love grow stronger day-by-day in the hearts of each of you.

Peace, beloved ones, Peace.

Go in Peace. ✨
