

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

December 31, 1980

Oxal: Greetings in the Light, my friends, I am Oxal.

I know you are all anxious to hear what we see from our vantage point for your coming year so I will tell you a few things that we see. I cannot tell you everything.

Your new leaders are going to find it very difficult to try to accomplish all of the promises made in the days of their seeking of office. They will find much opposition to many of their programs. Some of them they may fail entirely to accomplish and others will be accomplished. I believe they will slow your inflation for a time, and the first year of this administration will seem to have improved some situations, but it will be short-lived.

Your monetary or economic situation will not deteriorate too much in 1981 although your dollar is going to find itself still in trouble as far as an international currency is concerned. In fact, a meeting will be held around this mid-year, of the international bankers. It is very likely at that time or shortly after, that they will eliminate the dollar as an international monetary valuation system and will go to a new type of currency. It is possible that this may not be accomplished in 1981, but this is the plan at this time. They will try very hard to do this within this year. This, of course, will weaken the dollar as far as an international system is concerned.

The Russian government, or rather those who are in control, will be using more and more psychic attacks upon the American or United States diplomats, and most of them will not be aware of it. The Russians have advanced quite far in their abilities to use the psychic forces and they are not prone to use them for good. Also, they are using other forces or energies that so far, have been somewhat of a mystery to your government. However, it is becoming more and more aware of these things. At this time they are working quite desperately in the fields of psychic energies and cosmic energies, but the Soviet Union is quite advanced over your people. Your people are going to run into some situations that are going to be very difficult to handle and most of them will not be aware of these things at all, because they are not interested enough to learn what is going on about them.

We see also, more severe earthquakes occurring throughout the planet. You can expect some severe activity along the San Andreas fault. You will have some in your own area but not as severe as will occur in other parts.

The weather will continue to be unusually extreme as there will be many records set for temperatures. There will be a number of severe storms that will do great damage, but this is all a part of the cleansing of the planet. As we have said many times that when you see these things happening, you know that redemption is nigh.

I am not going to comment on individuals and their futures, only to say that your new president is going to have a much greater task before him than he realizes, and it is doubtful that he will weather the storm.

One of the things that will affect your economic system quite severely, both this year and in the years to follow, is the collapse of your automotive industries. They are going to find it very difficult to survive against the powers that are brought against them. You are going to see more and more foreign capital come into your automotive manufacturing system until it is practically taken over by foreign countries. This, perhaps you can see for yourself, but I just thought that I would remark about this situation. The failure of these industries will bring much pressure to bear upon your middle classes, and it will be these that will be struck most severely in the situations that lay ahead.

Now I think that I have painted enough gloom for you. I do not like to do this but you want to know what we see and I must be truthful.

But each individual needs to find this peace within himself or herself that was spoken about here tonight. For when you have peace within your own heart, peace with yourself, you are at peace with the world and all those about you. Most of your turmoil does not come from without, it comes from within. That which is without only affects you to the degree that you allow it to.

So let peace reign supreme in your heart. Be not one who attacks. But when you do attack, attack with love and with peace and love and peace will return to you.

The peace within your own heart will enhance itself day-by-day.

This is a lesson that Earth people must learn if they are to ever have peace upon planet Earth. It is much talked about but it always appears that the other party is to blame. You often hear individuals saying, "If we could only have peace what a great world we would have," and this is true. But what they do not realize is that the peace must begin in their own hearts. Those who have found this peace do not experience anything but peace.

So, people of Earth, if you would have peace, then find that peace within yourself, and each one that finds it, makes it easier for someone else to find it.

I leave you, my friends, by extending to you my love and my peace. May the Prince of Peace reign supreme in the hearts of each of you.

I am Oxal. ☸
